Braxton Bragg

Peugeot V-Clic, Speedfight 3, Vivacity 3, Kisbeen and Tweet (08 to 14)

Best Prank Ever (Ready, Freddy! 2nd Grade #4)

294 pages, 130 black & white illustrations, size 5.5 x 8.5 inches. In 1963, Temple Press UK published a revised and expanded 4th UK edition of 'Tuning for Speed' and, in 1965, they published a reprint of that 1963 edition. Both the 1963 and the 1965 publications are identical in content and contain 294 pages, a significant increase from the previous 208 page 1960 printing. With a total of 294 pages, the revised and expanded 4th UK edition is the most comprehensive of all of the 'Tuning for Speed' editions ever published. Earlier editions only stretched to 208 pages and later editions shrunk to 260 pages (or less) as what was thought to be 'dated information' was deleted from the contents. This 'dated information' is considered valuable today by those enthusiasts interested in vintage motorcycle tuning and modification. Consequently, this makes the revised 4th UK publication the most complete and desirable edition. Therefore, it is our pleasure to offer this reprint of the Floyd Clymer 'Revised 4th UK Edition or Second American Edition of 'Tuning for Speed' to motorcycle enthusiasts worldwide. 'Tuning for Speed' was originally published in 1948 and continuously reprinted and updated in order to keep pace with the constantly evolving range of British motorcycles and engines. While the primary focus of

this publication is on 1965 and prior British motorcycles, the theory and engineering it contains is still applicable to the current crop of high revving imports. 'Tuning for Speed' is considered by many knowledgeable motorcycle enthusiasts to be one of the best books ever written on how to improve, modify and fine tune a motorcycle engine and it is often referred to as one of the 'top 10' classic motorcycle books. The Floyd Clymer association with this publication dates back to the early 1960's when he purchased the United States Publishing rights for 'Tuning for Speed' from Temple Press in the UK and, in 1967, Clymer published the 1st American edition of that title. However, by 1967, the Clymer publication had been preceded by 8 printings of the UK edition and was incorrectly identified by Clymer as a 9th edition. In fact, the 1967 Clymer publication is actually a reprint of the less desirable 208 page 1960 UK edition. However, in 1963, the 4th UK edition was revised and expanded to 294 pages (with a second identical re-print in 1965). Therefore, this 2nd American edition of the Floyd Clymer publication of 'Tuning for Speed' includes all of that valuable 'dated information' that was deleted from the later editions and is identical in all respects to the 294 page 1963/1965 revised and expanded 4th UK edition - with the exception that 7 pages of UK-based advertising to the rear of the book are not included in the Clymer publication.

Classical Mechanics: Pearson New International Edition

Although the era of European colonialism has long

passed, misgivings about the inequality of the encounters between European and non-European languages persist in many parts of the postcolonial world. This unfinished state of affairs, this lingering historical experience of being caught among unequal languages, is the subject of Rey Chow's book. A diverse group of personae, never before assembled in a similar manner, make their appearances in the various chapters: the young mulatto happening upon a photograph about skin color in a popular magazine; the man from Martinique hearing himself named "Negro" in public in France; call center agents in India trained to Americanize their accents while speaking with customers; the Algerian Jewish philosopher reflecting on his relation to the French language; African intellectuals debating the pros and cons of using English for purposes of creative writing; the translator acting by turns as a traitor and as a mourner in the course of cross-cultural exchange; Cantonese-speaking writers of Chinese contemplating the politics of food consumption; radio drama workers straddling the forms of traditional storytelling and mediatized sound broadcast. In these riveting scenes of speaking and writing imbricated with race, pigmentation, and class demarcations, Chow suggests, postcolonial languaging becomes, de facto, an order of biopolitics. The native speaker, the fulcrum figure often accorded a transcendent status, is realigned here as the repository of illusory linguistic origins and unities. By inserting British and post-British Hong Kong (the city where she grew up) into the languaging controversies that tend to be pursued in Francophone (and occasionally Anglophone) deliberations, and by sketching the fraught situations

faced by those coping with the specifics of using Chinese while negotiating with English, Chow not only redefines the geopolitical boundaries of postcolonial inquiry but also demonstrates how such inquiry must articulate historical experience to the habits, practices, affects, and imaginaries based in sounds and scripts.

Wild Mammals of North America

From its origins the Italian battlefields of the Second World War, to movie roles as Audrey Hepburn's transport in Roman Holiday and Sting's stylish companion in Quadrophenia and on through the current vintage revival, the classic Italian motor scooter is an enduring design classic from the 20th century. Scootermania celebrates the superbly simple vehicles that are so symbolic of freedom, style and the modern world. Originating in the 1940s in Milan and Pontedera, Tuscany, the scooter became an enduring transport choice for young people and urban environments. Early chapters look at scooter racing and long-distance attempts, and their role as an anti-tank weapon in the French army. There is engaging coverage of place of scooters in popular culture from films, music and fashion including the way that a host of disparate groups has made the bikes their own - from the British Mods of the 1960s and 1980s to their role in American and Japanese fashion and in their Italian homeland. The evolution and design of classic models as the Vespa 150 GS and the Lambretta Li 150 Series 3 are covered while scooter stars such as Enrico Piaggio and Georges Monneret are celebrated

in their own words. The book also includes a number of specially photographed features on modern scooter designers, collectors and artists.

Caring for Your Scooter

As a leading Confederate general, Braxton Bragg (1817-1876) earned a reputation for incompetence, for wantonly shooting his own soldiers, and for losing battles. This public image established him not only as a scapegoat for the South's military failures but also as the chief whipping boy of the Confederacy. The strongly negative opinions of Bragg's contemporaries have continued to color assessments of the general's military career and character by generations of

historians. Rather than take these assessments at face value, Earl J. Hess's biography offers a much more balanced account of Bragg, the man and the officer. While Hess analyzes Bragg's many campaigns and battles, he also emphasizes how his contemporaries viewed his successes and failures and how these reactions affected Bragg both personally and professionally. The testimony and opinions of other members of the Confederate army--including Bragg's superiors, his fellow generals, and his subordinates--reveal how the general became a symbol for the larger military failures that undid the Confederacy. By connecting the general's personal life to his military career, Hess positions Bragg as a figure saddled with unwarranted infamy and humanizes him as a flawed yet misunderstood figure in Civil War history.
