## **Empirical Research and Writing**

Ursula K. Le Guin's *The Dispossessed* is of interest to political theorists partly because of its association with anarchism and partly because it is thought to represent a turning point in the history of utopian/dystopian political thought and literature and of science fiction. Published in 1974, it marked a revival of utopianism after decades of dystopian writing. According to this widely accepted view *The Dispossessed* represents a new kind of literary utopia, which Tom Moylan calls a 'critical utopia.' The present work challenges this reading of *The Dispossessed* and its place in the histories of utopian/dystopian literature and science fiction. It explores the difference between traditional literary utopia and novels and suggests that *The Dispossessed* is not a literary utopia but a novel about utopianism in politics. Le Guin's concerns have more to do with those of the novelists of the 19th century writing in the tradition of European Realism than they do with the science fiction or utopian literature. It also claims that her theory of the novel has an affinity with the ancient Greek tragedy. This implies that there is a conservatism in Le Guin's work as a creative writer, or as a novelist, which fits uneasily with her personal commitment to anarchism.

Even students capable of writing excellent essays still find their first major political science research paper an intimidating experience. Crafting the right research question, finding good sources, properly summarizing them, operationalizing concepts and designing good tests for their hypotheses, presenting and analyzing quantitative as well as qualitative data are all tough-going without a great deal of guidance and encouragement. Writing a Research Paper in Political Science breaks down the research paper into its constituent parts and shows students what they need to do at each stage to successfully complete each component until the paper is finished. Practical summaries, recipes for success, worksheets, exercises, and a series of handy checklists make this a must-have supplement for any writing-

intensive political science course. New to the Fourth Edition: A non-causal research paper woven throughout the text offers explicit advice to guide students through the research and writing process. Updated and more detailed discussions of plagiarism, paraphrases, "drop-ins," and "transcripts" help to prevent students from misusing sources in a constantly changing digital age. A more detailed discussion of "fake news" and disinformation shows students how to evaluate and choose high quality sources, as well as how to protect oneself from being fooled by bad sources. Additional guidance for writing abstracts and creating presentations helps students to understand the logic behind abstracts and prepares students for presentations in the classroom, at a conference, and beyond. A greater emphasis on the value of qualitative research provides students with additional instruction on how to do it.

#### **An Introduction to Political Theory**

This first of two volumes of Voegelin's miscellaneous papers brings together crucial writings, published for the first time, from the early, formative period of this scholar's thought. The book begins with Voegelin's dissertation on sociological method, completed under the direction of Othmar Spann and Hans Kelsen at the University of Vienna in 1922. It reveals an intimate knowledge of the writings of Georg Simmel and a skillful use of insights gained from Edmund Husserl's *Logical Investigations and Ideas*. The dissertation, and other smaller pieces written at this time, addresses problems that remained of great importance to Voegelin throughout his life: the relation of insight to language, the structure of the human being, and the human's spiritual center. They disclose both Voegelin's theoretical reference points during these early years, including the thought of Henri Bergson, Othmar Spann, Georg Simmel, and Edmund Husserl, as well the young scholar's remarkably independent approach to theoretical problems. Moreover, this volume

includes a work that is fundamental to an understanding of Voegelin's theoretical development: his extended study on the "theory of governance," written between 1930 and 1932. It follows the issues that confront political society to their roots in the soul and in the soul's relationship to the ground of being. The Theory of Governance and Other Miscellaneous Papers presents a meditative-exegetic study of texts from Augustine, Descartes, and Husserl, early examples of the meditations that became central to Voegelin's later work. Other essays included in this volume such as "Theory of Law" and "Political Theory as Human Science" develop these theoretical insights and refine Voegelin's methodological tools. This volume will be of interest to all scholars of the work of Eric Voegelin and of the refoundation of political philosophy in the twentieth century in general.
