Bentley is a brand that is rich in history but forward thinking and innovative. This is the company that created a Le Mans winner and a state limousine in the same year. Their 200 mph vehicles contain the hands-titching of fine leather and of high glossed veneers from 80-year-old trees; as well as the latest in-car technologies. For Bentley there is no contradiction between supreme luxury and sheer exhilaration. This was James Bond's first car, the record-setting ride of the Bentley Boys, the vision of founder W.O. Bentley-- "a fast car, a good car, the best in its class"-- and a vision that is still unfolding. Here is a grand tour through one of automotive's truly distinctive brands. The Bentley Book

Citroen C3

In this new view of the Citroen story, automotive/aviation writer and design specialist Lance Cole investigates not just the details of the cars of Citroen, but the aeronautical and cultural origins that lay behind Citroen's form and function. The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history. Using interviews, translations, archive documents and specially-commissioned photographs, the Citroen journey is cast in a fresh perspective. It explains in detail the influences upon Citroen design: Voisin, Lefebvre, Bertoni, Boulanger, Mages, Opron and recent Citroen designers such as Coco, Blakeslee and Soubirou. As well as all the men of the great period of 1920s-1970s expansion, it also cites less well-known names of Citroen's French engineering, design, and influence such as

Cayla, Gerin, Giret, Harmand, Dargent and others, to give a full picture of Citroen heritage. The book provides in-depth analysis of all major Citroen models with an engineering and design focus and profiles key individuals and cars up to the present day and Citroen's 'DS'-branded resurgence. It features many newly commissioned photographs, rare archive drawings and interviews with Citroen owners. Researched amongst leading Citroen experts and restorers, Lance Cole provides a fresh perspective on the Citroen car manufacturer, its design language and the legacy of its extraordinary engineering which will be of great interest to all Citroen and motoring enthusiasts. Superbly illustrated with 329 colour photographs, many newly commissioned along with rare archive drawings.
