The Outstretched Shadow, the first book in The Obsidian Trilogy from Mercedes Lackey and James Mallory Kellen Tavaddon, son of the Arch-Mage Lycaelon, thought he knew the way the world worked. His father, leading the wise and benevolent Council of Mages, protected and guided the citizens of the Golden City of the Bells. Young Mages in training--all men, for women were unfit to practice magic--memorized the intricate details of High Magic and aspired to seats on the council. Then he found the forbidden Books of Wild Magic--or did they find him? The three slim volumes woke Kellen to the wide world outside the City's isolating walls. Their Magic was not dead, strangled by rules and regulations. It felt like a living thing, guided by the hearts and minds of those who practiced it and benefited from it. Questioning everything he has known, Kellen discovers too many of the City's dark secrets. Banished, with the Outlaw Hunt on his heels, Kellen invokes Wild Magic--and finds himself running for his life with a unicorn at his side. Kellen's life changes almost faster than he can understand or accept. Rescued by a unicorn, healed by a female Wild Mage who knows more about Kellen than anyone outside the City should, meeting Elven royalty and Elven warriors, and plunged into a world where the magical beings he has learned about as abstract concepts are flesh and blood creatures--Kellen both revels in and fears his new freedom. Especially once he learns about Demons. He'd always thought they were another abstract concept--a stand-in for ultimate evil. But if centaurs and dryads are real, then Demons surely are as well. And the one thing all the Mages of

the City agreed on was that practicing Wild Magic corrupted a Mage. Turned him into a Demon. Would that be Kellen's fate? Deep in Obsidian Mountain, the Demons are waiting. Since their defeat in the last great War, they've been biding their time, sowing the seeds of distrust and discontent between their human and Elven enemies. Very soon now, when the Demons rise to make war, there will be no alliance between High and Wild Magic to stand against them. And all the world will belong to the Endarkened. states. Was it the natural decline that comes to all cultures or was it because the power of the Labyrinth had been corrupted by a woman spurned? A hundred years pass--Troy has fallen and the Trojans are a scattered and humbled people. The warrior Brutus is of the line of kings and gods. He wears the golden kingship bands of Troy proudly--but they are his only mementos of a former glory, for he is a man without a country and is left little else but pride and a memory of the latent power that he could wield if but given a chance. When he receives a god-sent vision of a distant shore where he can rebuild the ancient kingdom, he will move heaven and earth to reach his destiny. Ever eastward he is drawn, to a lovely and mystical green land that offers him a haven--and a dream of power and conquest. Nothing will deter him not even the entreaties of the young princess whom he took as his wife and bedded against her will. First her hatred--and now her love--torment and bind him. She is the only one who realizes the danger he is stepping into, and she will do anything to save him and his son, whom she carries in her womb. For in the mists of Albion there lies a woman of power--a woman who has used her siren call to cloud Brutus's mind and has her own reasons for luring the warrior to these lush shores. She is the long-descended granddaughter of Adrienne, and she has in her heart a hatred that has been passed down for generations. Her plans for Brutus will enact a revenge that could destroy the gods themselves. s20If Brutus makes the journey successfully, it will be the next step in the Game of the Labyrinth and might start a complicated contest of wills that could span centuries. to weapons of mass destruction and conversely to life-saving medical interventions. This unassuming man struggled with issues relevant today, such as the threat of nuclear annihilation and the relationship of science to politics. Fleeing Fascism and anti-Semitism, Fermi became a leading figure in America's most secret project: building the atomic bomb. The last physicist who mastered all branches of the discipline, Fermi was a rare mixture of theorist and experimentalist. His rich legacy encompasses key advances in fields as diverse as cosmic rays, nuclear technology, and early computers. In their revealing book, *The Pope of Physics*, Gino Segré and Bettina Hoerlin bring this scientific visionary to life. An examination of the human dramas that touched Fermi's life as well as a thrilling history of scientific innovation in the twentieth century, this is the comprehensive biography that Fermi deserves.
