Jeffery Adams wakes up alone in a small white room, no memories, no recollections of his past. The only clue that suggests a past he shouldn't want to remember is a long red scar running down the left side of his face. When a bald man with a bulging head and a girl Jeffery's age enter the room, they inform him that he's been brought to Hero Central, an artificial cloud housing many individuals with super-human powers. They suspect that he may possess unique abilities that enable him to train at the school there: The Institute for Super-Human Education. He soon discovers the forgotten alias "Darkblade" and learns that he can control the physical manifestation of fear, a substance known as Dark Matter. However, as he soon finds out, things are not as great as they seem. Nightmares of a living shadow plague Jeffery when he sleeps. A curious student from the "evil" Pravus Track at the Institute shows an unusual interest in Jeffery and an extremely intelligent scientist named Brainiac would like nothing more than to throw him off the cloud. As memories of a not-so-perfect past begin to resurface, Jeffery grows more and more suspicious of the leadership on Hero Central and even of his two "friends" Shooting Star and Zap. His suspicions draw him closer and closer to the metropolis of Union City, but what awaits him there may be even worse than the goings-on at Hero Central. In his debut novel, author Lawrence Silveira demonstrates the gray areas in the battle between good and evil. And of course, things may not always turn out as expected.

Ash was looking forward to a summer of camping with friends and time travelling. Then his Great Aunt fades away (literally), his near-death nightmare gets even weirder and he keeps falling into someone else's dreams. On top of that, his house is attacked and he gets trapped in the past while trying to help a new friend who isn't too friendly. Juna isn't having a great time of it either: having escaped from her parole officer, she barely survives falling out of a plane and getting sucked into a bizarre tornado that keeps appearing in the most unlikely situations. While Ash and Juna try to get out of the past and back home, events and dreams keep pointing them to the place where it all starts and ends, where shadows dance and time bends. If they can get there, they may be able to stop an implacable enemy from destroying their future. Of course, getting there means surviving first.

A Matter of Trust

For those who know that something is going on The witnesses are legion, scattered across the world and dotted through history, people who looked up and saw something impossible lighting up the night sky. What those objects were, where they came from, and who—or what—might be inside them is the subject of fierce debate and equally fierce mockery, so that most who glimpsed them came to wish they hadn't. Most, but not everyone. Among those who know what they've seen, and—like the toll of a bell that can't be unring—are forever changed by it, are a pilot, an heiress, a journalist, and a prisoner of war. From the waning days of the 20th century's final great war to the fraught fields of Afghanistan to the otherworldly secrets hidden amid Nevada's dusty neverlands—the truth that is out

there will propel each of them into a labyrinth of otherworldly technology and the competing aims of those who might seek to prevent—or harness—these beings of unfathomable power. Because, as it turns out, we are not the only ones who can invent and build and destroy. Featuring actual events and other truths drawn from sources within the military and intelligence community, Tom DeLonge and A.J. Hartley offer a tale at once terrifying, fantastical, and perhaps all too real. Though it is, of course, a work of fiction?
