Learning Through Serving

The purpose of this work is to improve service learning research and practice through strengthening its theoretical base. Contributing authors include both well-known and emerging service learning and community engagement scholars, as well as scholars from other fields. The authors bring theoretical perspectives from a wide variety of disciplines to bear as they critically review past research, describe assessment methods and instruments, develop future research agendas, and consider implications of theory-based research for enhanced practice. This volume, 2A, opens with chapters focused on defining the criteria for quality research. It then moves on to research related to students, comprising chapters that focus on cognitive processes, academic learning, civic learning, personal development, and intercultural competence. The concluding faculty section presents chapters on faculty development, faculty motivation, and faculty learning. Constituting a rich resource that suggests new approaches to conceptualizing, understanding, implementing, assessing, and studying service learning. Each chapter offers recommendations for future research. Research on Service Learning: Conceptual Frameworks and Assessment will be of interest to both new and veteran service learning instructors seeking to enhance their practice by integrating what has been learned in terms of teaching, assessment, and research.

Get Free Service Learning Journal Example

Staff and faculty who are responsible for promoting and supporting service learning at higher education institutions, evaluating community service programs, and working with faculty to develop research on service learning, will also find this volume helpful. For scholars and graduate students reviewing and conducting research related to service learning, this book is a comprehensive resource, and a knowledge base about the processes and outcomes of innovative pedagogies, such as service learning, that will enable them to locate their own work in an expanding and deepening arena of inquiry. Volume 2B, sold separately, also opens with chapters focused on defining the criteria for quality research. It looks at community development, and the role of nonprofit organizations in service learning. It then focusses on institutions, examining the institutionalization of service learning, engaged departments, and institutional leadership. The final section on partnerships in service learning includes chapters on conceptualizing and measuring the quality of partnerships, inter-organizational partnerships, and student partnerships.

Why Community Matters

International Service Learning (ISL) borrows from the domains of service learning, study abroad, and international education to create a new pedagogy that adds new and unique value from this combination. It is a high-impact pedagogy with the potential to improve students' academic attainment, contribute to their personal

Get Free Service Learning Journal Example

growth, and develop global civic outcomes. The international service experience provides opportunities for additional learning goals, activities, and relationships that are not available in a domestic service learning course or in a traditional study abroad course. The service experience develops reflection while shedding light on and providing an added dimension to the curricular component of the study abroad course. The international education component further broadens students' perspectives by providing opportunities to compare and contrast North American and international perspectives on course content. This book focuses on conducting research on ISL, which includes developing and evaluating hypotheses about ISL outcomes and measuring its impact on students, faculty, and communities. The book argues that rigorous research is essential to improving the quality of ISL's implementation and delivery, and providing the evidence that will lead to wider support and adoption by the academy, funders, and partners. It is intended for both practitioners and scholars, providing guidance and commentary on good practice. The volume provides a pioneering analysis of and understanding of why and under what conditions ISL is an effective pedagogy. Individual chapters discuss conceptual frameworks, research design issues, and measurement strategies related to student learning outcomes; the importance of ISL course and program design; the need for faculty development activities to familiarize faculty with the component pedagogical strategies; the need for resources and collaboration across campus units to develop institutional capacity for ISL; and the role that community constituencies should assume as co-creators of the curriculum, co-educators in the

Get Free Service Learning Journal Example

delivery of the curriculum, and co-investigators in the evaluation of and study of ISL. The contributors demonstrate sensitivity to ethical implications of ISL, to issues of power and privilege, to the integrity of partnerships, to reflection, reciprocity, and community benefits

Whitaker's Almanack

This handbook is an invaluable resource for students taking a communication course with a service-learning component. It provides guidelines for connecting service-learning work with classroom concepts and advice for working effectively with agencies and organizations, and it offers model forms and sample speeches for students to utilize throughout the course.

Service Learning for All Students

Outreach and engagement initiatives are crucial in promoting community development. This can be achieved through a number of methods, including avenues in the fine arts. The Handbook of Research on the Facilitation of Civic Engagement through Community Art is a comprehensive reference source for emerging perspectives on the incorporation of artistic works to facilitate improved civic engagement and social justice. Featuring innovative coverage across relevant

Get Free Service Learning Journal Example

topics, such as art education, service learning, and student engagement, this handbook is ideally designed for practitioners, artists, professionals, academics, and students interested in active citizen participation via artistic channels.

Campus Compact's Introduction to Service-learning Toolkit

Because protecting environmental resources has become an issue of scientific, political, and historical import, service-learning projects that serve the planet have become an important part of a wide range of curricula. Students will find a wealth of opportunities both at home and abroad that will directly impact the Earth's wildlife, aquatic health, and natural resources. This engaging volume surveys the various projects available to students interested in using service learning to find solutions to local and global environmental issues. Readers also learn how to tie projects to coursework and apply their skills to future pursuits.

Where's the Wisdom in ServiceLearning?

Linking research and educational practice for the benefit of both is not a new idea. If practice such as service-learning is a bold departure from the status quo, however, research is not just beneficial, it is critical. If schools are to become laboratories of democracy and entrepreneurship, and if students are to become

Get Free Service Learning Journal Example

engaged as partners in renewal of their communities, a research case must be made for service-learning. Does learning take place? Will other kinds of learning suffer? What kinds of practice are most effective? Clearly, solid research is essential if this transforming way of teaching and learning is to be fully integrated into American schooling and youth development institutions. The National Youth Leadership Council (NYLC) took a first step toward joining service-learning practice with research in 1983. In 1991, NYLC created a center which initiated and encouraged program evaluation, formative research that informs and improves practice, and summative studies that measure results. This volume grew out of a National Service-Learning Conference--an annual event convened by the NYLC. A day long research seminar at the conference brought together researchers to discuss the latest developments among themselves and with practitioners. Impressive in their range and rigor, their papers offer documentation and analysis useful to an emerging research knowledge base. It is a starting point for the evidence needed to firmly establish service-learning for K-12 age people as a widely accepted way of teaching and learning.

Learning from the Student's Perspective

The servicelearning field is 50 years old in the United States. Much has been developed over that time in the fields of K12 schooling, higher education, and community organizations. People who have been involved in the movement have

Get Free Service Learning Journal Example

worked individually and collaboratively to include servicelearning as an effective pedagogy and program in educational settings. They have created opportunities for students, teachers, faculty, and community members to learn about academic content and personal commitment to serving others for social change and community impact. In this book we hear from individuals who have been involved in the effort for more than 30 or 40 years about what they have learned from their experiences and what wisdom they can share with others who will be involved for the next several decades. Their experience, insight, and understanding will hopefully help younger people to improve and expand on the movement and place servicelearning and community engagement as a regular part of American education. “Robert Shumer has been a stalwart of the service learning movement for decades. He’s a practitioner, a researcher, an experimenter. This book gives valuable perspective for all of us going forward.” ~ Paul Loeb, Author of *Soul of a Citizen* “At a moment when many are asking how higher education can better serve our democracy, Robert Shumer’s book reminds us that we still have much to learn from those who built the movement for community engagement through service learning. As befits the field, the chapters in this book derive wisdom from experience and, in so doing, give us insight and inspiration for identifying the way forward.” ~ Andrew J. Seligsohn, President, Campus Compact “This book provides a strong foundation for promoting discussions on how the servicelearning movement has evolved over the past 3040 years. Rob Shumer has pulled together several key leaders in the servicelearning movement to share their stories and

Get Free Service Learning Journal Example

experiences. This book will be useful to a younger generation of servicelearning practitioners and faculty who will continue to build the field that these pioneers so generously cultivated.” ~ Elaine K. Ikeda, Ph.D. Executive Director, California Campus Compact

Service Learning

Only two years after its first run, the Inverted Classroom Conference has become a familiar event at Marburg University. Most conference participants not only knew about this digital teaching and learning scenario but were experienced users and developers. While during its predecessors most participants wanted to familiarize themselves with the central components of the Inverted Classroom Model, the focus of the 3rd German Inverted Classroom Conference in 2014, to which this conference volume is dedicated, was not only a discussion of variants of the model but also, for the first time, the inclusion of long-term evaluations and aspects of student behavior. This shift of emphasis is reflected in the contributions to this volume. Even though all central aspects of the ICM - content production and delivery, testing, and the in-class phase - are still addressed, we can now find recommendations concerning digital material acquisition, in-class tuition, the role of student tutors as well as first long-term studies about ICM effects. In general then, the focus was much wider than that of the first two ICM-conferences: from a new and originally non-familiar teaching and learning scenario to more general

Get Free Service Learning Journal Example

aspects of digitization of teaching and learning in the 21st century.

Learning Journals

Providing the theoretical ground for service learning by showing how this pedagogy can be used in the service of helping institutions of higher education become active partners in their communities and help develop sustainable democratic communities

Service-learning and the Liberal Arts

The book evaluates service-learning within the context of a liberal arts education from a variety of disciplines. Contributors have written chapters that have practical appeal to other teachers and students interested in developing their own service-learning courses and connecting those courses to broader issues of citizenship and democracy.

Michigan Journal of Community Service Learning

Throughout the 90s and early 2000s, service-learning research was intensely focused on the student outcomes. That body of research has effectively brought

Get Free Service Learning Journal Example

service-learning from the fringes into the mainstream of institutionalized pedagogies. In the past decade service-learning research has experienced an infusion of exploration in three distinct ways: first, large-scale quantitative methodologies; second, a proliferation of research that has explored how different sub-groups of students experience the pedagogy differently, thusly resulting in variation among outcomes; and third, a focus on the experiences and outcomes associated for communities and community partners engaged in service-learning. In an effort to support these movements, this volume of the Advances in Service-Learning Research series, *Service-Learning to Advance Access & Success: Bridging Institutional and Community Capacity*, focuses on how service-learning can advance access and success. Not simply access and success of students, but the ways that service-learning can advance access and success for all through bridging institutional and community capacity building. The chapters in this volume serve as a testament to the ways in which service-learning research continue to be advanced by thoughtful scholar-practitioners. The 12 chapters included in this volume are organized into three sections. The first section focuses on how institutional and community partnerships can be leveraged to build community capacity. The second section focuses on how institutions might build their own capacity to effect change for the good of society. The third and final section focuses on six studies exploring the relationship service-learning pedagogy has with access and success for students. Of the six studies, three are situated within the context of teacher-preparation programs.

Toward a Civil Society

Provides information on using journal writing in teaching and professional development.

International Service Learning

The Advances in ServiceLearning Research book series was established to initiate the publication of a set of comprehensive research volumes that would present and discuss a wide range of issues in this broad field called servicelearning. Servicelearning is a multifaceted pedagogy that crosses all levels of schooling, has potential relevance to all academic and professional disciplines, is connected to a range of dynamic social issues, and operates within a broad range of community contexts. In terms of research, there is much terrain to cover before a full understanding of servicelearning can be achieved. This volume, the first in the annual book series, explores various themes, issues, and answers that bring us one step closer to understanding the essence of servicelearning. The chapters of this volume focus on a broad range of topics that address a variety of research issues on servicelearning in K12 education, teacher education, and higher education. Through a widescoped research lens, the volume explores definitional foundations of servicelearning, theoretical issues regarding servicelearning, the impacts of

Get Free Service Learning Journal Example

servicelearning, and methodological approaches to studying servicelearning. Collectively, the chapters of the book provide varying and, at times, opposing perspectives on some of the critical issues regarding servicelearning research and practice.

Service-Learning Essentials

Offering a truly global perspective, this book serves as a road map for service-learning partnerships between information science and nonprofit organizations. It introduces for the first time an essential framework for service learning in CIS, addressing both the challenges and opportunities of this approach for all stakeholders involved: faculty, students, and community nonprofit organizations (NPOs), both domestic and abroad. This volume outlines numerous examples of successful programs from around the world, presenting practical working models for implementing joint projects between NPOs and academia.

Higher Education Service-learning Sourcebook

This substantially expanded new edition of this widely-used and acclaimed text maintains the objectives and tenets of the first. It is designed to help students understand and reflect on their community service experiences both as individuals

Get Free Service Learning Journal Example

and as citizens of communities in need of their compassionate expertise. It is designed to assist faculty in facilitating student development of compassionate expertise through the context of service in applying disciplinary knowledge to community issues and challenges. In sum, the book is about how to make academic sense of civic service in preparing for roles as future citizen leaders. Each chapter has been developed to be read and reviewed, in sequence, over the term of a service-learning course. Students in a semester course might read just one chapter each week, while those in a quarter-term course might need to read one to two chapters per week. The chapters are intentionally short, averaging 8 to 14 pages, so they do not interfere with other course content reading. This edition presents four new chapters on Mentoring, Leadership, Becoming a Change Agent, and Short-Term Immersive and Global Service-Learning experiences. The authors have also revised the original chapters to more fully address issues of social justice, privilege/power, diversity, intercultural communication, and technology; have added more disciplinary examples; incorporated additional academic content for understanding service-learning issues (e.g., attribution theory); and cover issues related to students with disabilities, and international students. This text is a student-friendly, self-directed guide to service-learning that:

- Develops the skills needed to succeed
- Clearly links service-learning to the learning goals of the course
- Combines self-study and peer-study workbook formats with activities that can be incorporated in class, to give teachers maximum flexibility in structuring their service-learning courses
- Promotes independent and collaborative learning

Get Free Service Learning Journal Example

Equally suitable for courses of a few weeks' or a few months' duration • Shows students how to assess progress and communicate end-results • Written for students participating in service learning as a class, but also suitable for students working individually on a project. Instructor's Manual This Instructor Manual discusses the following six key areas for aligning your course with use of Learning through Serving, whether you teach a senior-level high school class, freshman studies course, or a college capstone class: 1. Course and syllabus design 2. Community-partner collaboration 3. Creating class community 4. Strategic teaching techniques 5. Developing intercultural competence 6. Impact assessment This Manual is free, and available only in PDF format. [Download here.](#)

Service-Learning and Social Justice

Critical Service Learning Toolkit offers a strengths-based, interdisciplinary approach to promoting social competence while enhancing emotional and academic skill development. Designed as a user-friendly guide to carrying out successful CSL projects, this Toolkit provides practitioners with step-by-step assistance in planning, implementing, and evaluating Critical Service Learning (CSL) projects in elementary and high schools. CSL trains youth to become active and conscientious citizens through engagement and leadership experiences that meet real needs in the community. This approach is unique in that it places the youth/student at the center of the process. Prioritizing social and emotional

Get Free Service Learning Journal Example

learning (SEL) and school engagement, CSL changes the role of the school-based, counseling professional into that of a facilitator who encourages skill-building, reflection, and civic engagement. Cultivating self-awareness, social-consciousness, and critical-thinking skills, brainstorming and community web mapping activities serve as the cornerstone of CSL and allow youth to become comfortable articulating concerns about their communities. By extending learning beyond the classroom and into the community, CSL enhances what is taught throughout the school curriculum, at all levels, and fosters a sense of civic responsibility and social agency.

Assessing Service-Learning and Civic Engagement

International education, service-learning, and community-based global learning programs are robust with potential. They can positively impact communities, grow civil society networks, and have transformative effects for students who become more globally aware and more engaged in global civil society – at home and abroad. Yet such programs are also packed with peril. Clear evidence indicates that poor forms of such programming have negative impacts on vulnerable persons, including medical patients and children, while cementing stereotypes and reinforcing patterns of privilege and exclusion. These dangers can be mitigated, however, through collaborative planning, design, and evaluation that advances mutually beneficial community partnerships, critically reflective practice,

Get Free Service Learning Journal Example

thoughtful facilitation, and creative use of resources. Drawing on research and insights from several academic disciplines and community partner perspectives, along with the authors' decades of applied, community-based development and education experience, they present a model of community-based global learning that clearly espouses an equitable balance between learning methodology and a community development philosophy. Emphasizing the key drivers of community-driven learning and service, cultural humility and exchange, seeking global citizenship, continuous and diverse forms of critically reflective practice, and ongoing attention to power and privilege, this book constitutes a guide to course or program design that takes into account the unpredictable and dynamic character of domestic and international community-based global learning experiences, the varying characteristics of destination communities, and a framework through which to integrate any discipline or collaborative project. Readers will appreciate the numerous toolboxes and reflective exercises to help them think through the creation of independent programming or courses that support targeted learning and community-driven development. The book ultimately moves beyond course and program design to explore how to integrate these objectives and values in the wider curriculum and throughout formal and informal community-based learning partnerships.

Service-Learning in Physical Education and Other Related

Professions: A Global Perspective

Handbook of Research on the Facilitation of Civic Engagement through Community Art

Providing a new perspective on the undeniable relationship between education reform and democratic revitalization, Nicholas V. Longo uncovers and examines practical models in which communities play an essential role in teaching the art of democracy.

Service-Learning to Advance Access & Success

This book provides everything administrators and teachers need to build service-learning programs that prepare students as engaged citizens committed to equity and justice. Cipolle describes practical strategies for classroom teachers along with the theoretical framework so readers can deftly move beyond the book to a meaningful program for their schools.

The Complete Guide to Service Learning

Get Free Service Learning Journal Example

Portrays the experiences and development of students as they commit themselves to community service during their college years.

Service-learning

With contributions from leading experts across disciplinary fields, this book explores best practices from the field's most notable researchers, as well as important historically based and politically focused challenges to a field whose impact has reached an important crossroads. The comprehensive and powerfully critical analysis considers the history of community engagement and service learning, best teaching practices and pedagogies, engagement across disciplines, and current research and policies - and contemplates the future of the field. The book will not only inform faculty, staff, and students on ways to improve their work, but also suggest a bigger social and political focus for programs intended to seriously establish democracy and social justice in their communities and campuses.

Research on Service Learning

Presents a cursory reference of general knowledge, covering such topics as news, history, politics, media, science, finance, and sports.

Community-Based Global Learning

This book serves as an introduction to using online teaching technologies and hybrid forms of teaching for experiential learning and civic engagement. Service-learning has kept pace neither with the rapid growth in e-learning in all its forms nor with the reality that an increasing number of students are learning online without exposure to the benefits of this powerful pedagogy. Eservice-learning (electronic service-learning) combines service-learning and on-line learning and enables the delivery of the instruction and/or the service to occur partially or fully online. Eservice-learning allows students anywhere, regardless of geography, physical constraints, work schedule, or other access limitations, to experience service-learning. It reciprocally also equips online learning with a powerful tool for engaging students. In eservice-learning, the core components of service, learning, and reflection may take a different form due to the online medium--for example, reflection often occurs through discussion board interactions, journals, wikis, or blogs in an eservice-learning course. Moreover, the service, though still community-based, creates a world of opportunities to connect students with communities across the globe--as well as at their very own doorstep. This book introduces the reader to the four emerging types of eservice-learning, from Extreme EService-Learning (XE-SL) classes where 100% of the instruction and 100% of the service occur online, to three distinct forms of hybrid where either the service or the instruction are delivered wholly on-line - with students, for instance, providing

Get Free Service Learning Journal Example

online products for far-away community partners - or in which both are delivered on-site and online. It considers the instructional potential of common mobile technologies - phones, tablets and mobile reading devices. The authors also address potential limitations, such as technology challenges, difficulties sustaining three-way communication among the instructor, community partner, and students, and added workload. The book includes research studies on effectiveness as well as examples of practice such drafting grants for a community partner, an informational technology class building online communities for an autism group, and an online education class providing virtual mentoring to at-risk students in New Orleans from across the country.

Civic Engagement Across the Curriculum

Makes explicit the connection between coursework and field placement, and elucidates how the policies which the government legislates affect the elderly.

Service Learning

This project-based guide is a blueprint for service learning—from getting started to assessing the experience—and integrates the K-12 Service-Learning Standards for Quality Practice. It provides ideas for incorporating literacy into service learning

Get Free Service Learning Journal Example

and suggestions for creating a culture of service. An award-winning treasury of activities, ideas, annotated book recommendations, author interviews, and expert essays—all presented within a curricular context and organized by theme. Digital Content contains all of the planning and tracking forms from the book plus bonus service learning plans, and more.

The Cambridge Handbook of Service Learning and Community Engagement

A complete resource guide to service-learning for credit in colleges and universities.

The Art and Strategy of Service-learning Presentations

Through nine exciting service learning projects, students gain the unique opportunity for authentic learning experiences both in the classroom and in their surrounding community.

Critical Service Learning Toolkit

Service-Learning Essentials is the resource you need to help you develop high-

Get Free Service Learning Journal Example

quality service-learning experiences for college students. Written by one of the field's leading experts and sponsored by Campus Compact, the book is the definitive work on this high-impact educational practice. Service-learning has been identified by the Association of American Colleges and Universities as having been widely tested and shown to be beneficial to college students from a wide variety of backgrounds. Organized in an accessible question-and-answer format, the book responds clearly and completely to the most common questions and concerns about service-learning. Each chapter addresses issues related to individual practice as well as to the collective work of starting and developing a service-learning center or program, with examples drawn from a variety of disciplines, situations, and institutional types. The questions range from basic to advanced and the answers cover both the fundamentals and complexities of service-learning. Topics include: Determining what service-learning opportunities institutions should offer How to engage students in critical reflection in academic courses and in cocurricular experiences Best practices for developing and sustaining mutually beneficial campus-community partnerships Integrating service-learning into the curriculum in all disciplines and at all levels, as well as various areas of student life outside the classroom Assessing service-learning programs and outcomes The dilemmas of service-learning in the context of power and privilege The future of service-learning in online and rapidly globalizing environments Service-learning has virtually limitless potential to enable colleges and universities to meet their goals for student learning while making unique contributions to addressing unmet

Get Free Service Learning Journal Example

local, national, and global needs. However, in order to realize these benefits, service-learning must be thoughtfully designed and carefully implemented. This easy-to-use volume contains everything faculty, leaders, and staff members need to know about service-learning to enhance communities, improve higher education institutions, and educate the next generation of citizens, scholars, and leaders.

Where's the Learning in Service-Learning?

Elder Care and Service Learning

As academic service-learning continues to grow rapidly, practitioners are discovering a pressing need for solid empirical research about learning outcomes. *Where's the Learning in Service-Learning?* helps define learning expectations, presents data about learning, and links program characteristics with learning outcomes. It is the first book to explore the experience of service-learning as a valid learning activity.

Service-learning

This book offers a broad overview of many issues related to assessment in higher

Get Free Service Learning Journal Example

education, with specific application for understanding the impact of service-learning and civic engagement initiatives. This revised edition includes an additional chapter that explores recent changes in the assessment landscape and offers examples and resources for designing assessment strategies for community engagement in higher education. The original text includes narrative addressing assessment issues and strategies; a detailed discussion of learning from multiple research projects performed over the past two decades about impact on multiple constituencies –students, faculty, communities, and institutions; and a discussion of strategies for data collection, analysis, synthesis, and reporting. Specific assessment instruments for use with each constituency are provided, including suggestions for administration, preparation, and data analysis. This volume will be helpful for individuals seeking a comprehensive resource on assessment issues in higher education.

Reflection Methods and Activities for Service Learning

The study and application of service learning as a pedagogy has become widespread. *Service-Learning in Physical Education and Other Related Professions: A Global Perspective* demonstrates how faculty in physical education and other related professions have designed, implemented, assessed, and conducted action research involving service-learning as a teaching and learning method, both locally and globally, as a means of both serving the community and enriching the lives of

Get Free Service Learning Journal Example

their students. This text is broken down into three parts: Part I provides a definition of service learning, examines the parameters that have been explored in physical education and higher education in general, and the integration of standards to ensure high-quality service-learning. Part II focuses on the pedagogical frameworks in which service-learning thrives and explores how the model specifically meets national standards and best practices. It also explores the emerging role of research as a measurement tool of the effectiveness of service learning. Part III explores a variety of programs from around the globe that utilize service-learning in their pedagogical framework, and provides the nuts and bolts of what they have done and their accomplishments."

Service Learning

This document provides an overview of service learning (SL) and shows how teachers can incorporate SL into elementary, middle, and high school curricula. First, SL is differentiated from community service and volunteerism. The four basic elements of SL (preparation, service, reflection, and celebration) are explained along with strategies for incorporating them into curricula and the benefits and drawbacks of various types of SL activities (direct and indirect service and civic action). The role of SL advisory committees and categories from which committee representatives are generally selected are examined. Discussed next are the importance of effective communication to the success of SL programs and

Get Free Service Learning Journal Example

considerations in and ways of monitoring/evaluating SL programs. The following benefits of SL are described: adult models for young people, student self-direction, parent involvement, improved workplace relationships, school-community partnerships, and altered perceptions of youth. Outlined next are approaches to infusing SL into elementary, middle, and high school curricula based on the following: community service classes, mandatory services, collaboration with community-based organizations, targeted populations, club-linked service, career/vocational education courses, in-school service, special events, and summer service. Concluding the document is a list of 25 organizations providing information related to SL. (MN)

Service-Learning in the Computer and Information Sciences

Much has been written about how to engage students in their learning, but very little of it has issued from students themselves. Compiled by one of the leading scholars in the field of student voice, this sourcebook draws on the perspectives of secondary students in the United States, England, Canada, and Australia as well as on the work of teachers, researchers, and teacher educators who have collaborated with a wide variety of students. Highlighting student voices, it features five chapters focused on student perspectives, articulated in their own words, regarding specific approaches to creating and maintaining a positive classroom environment and designing engaging lessons and on more general issues of

Get Free Service Learning Journal Example

respect and responsibility in the classroom. To support educators in developing strategies for accessing and responding to student voices in their own classrooms, the book provides detailed guidelines created by educational researchers for gathering and acting upon student perspectives. To illustrate how these approaches work in practice, the book includes stories of how pre-service and in-service teachers, school leaders, and teacher educators have made student voices and participation central to their classroom and school practices. And finally, addressing both practical and theoretical questions, the book includes a chapter that outlines action steps for high school teachers, school leaders, and teacher educators and a chapter that offers a conceptual framework for thinking about and engaging in this work. Bringing together in a single text student perspectives, descriptions of successful efforts to access them in secondary education contexts, concrete advice for practitioners, and a theoretical framework for further exploration, this sourcebook can be used to guide practice and support re-imagining education in secondary schools of all kinds, and the principles can be adapted for other educational contexts.

Protecting the Environment Through Service Learning

The Inverted Classroom Model

Get Free Service Learning Journal Example

This substantially expanded new edition of this widely-used and acclaimed text maintains the objectives and tenets of the first. It is designed to help students understand and reflect on their community service experiences both as individuals and as citizens of communities in need of their compassionate expertise. It is designed to assist faculty in facilitating student development of compassionate expertise through the context of service in applying disciplinary knowledge to community issues and challenges. Learning Through Serving

This new revised edition of our bestselling book brings together the best, most up-to-date writing and resources on service-learning, from learning theory and pedagogy to practical guidance on how to implement service-learning in the classroom. This edition reflects the tremendous growth in service-learning that has occurred since the first Toolkit was published in 2000. In addition to updated material throughout, this volume includes expanded chapters on community

Get Free Service Learning Journal Example

partnerships, student development, and redesigning curriculum, as well as two new chapters--one exploring the connection between service-learning and civic engagement and the other focusing on community-based research. Revised and expanded recommended reading lists, broken down by topic, bring readers a wealth of print and online resources for further study. Introduction to Service-Learning Toolkit is an essential resource for faculty and administrators who wish to be part of the growing movement toward civic engagement in higher education.

E-Service-Learning

Explores the controversies surrounding service-learning practice.

Community Service and Higher Learning

Civic Education Across the Curriculum offers faculty in all disciplines rationales and resources for connecting their service-learning efforts to the broader goals of civic engagement. Campuses promoting engagement are beginning to tie service-learning practices to their civic mission of preparing students for participation in a diverse, democratic society. There are, however, few resources for faculty—especially those in fields not traditionally linked with civic education—to think about how civic engagement might be incorporated into their own

disciplinary perspectives and course goals. This volume distills a wide range of disciplinary perspectives on citizenship into usable conceptual frameworks. It provides concrete examples of course materials, exercises, and assignments that can be used in service-learning courses to develop students' civic capacities, regardless of disciplinary area. This volume will assist faculty in their own curricular work as well as enable them to combine their individual initiatives with others across their campus.
