Poor Little Bitch Girl

"Adelaide Mannheim and her slave Rachel share a shameful secret. Adelaide's father, a Jewish planter in Cass County, Georgia, is Rachel's father, too. Adelaide marries neighboring planter Henry Kaltenbach, a Jew

deeply troubled by slavery, and watches with a wary eye as her husband treats all of his slaves--including Rachel---with kindness. As the country's conflict over slavery looms ever larger, Henry and Rachel fall in love, and as the United States is rent by the Civil War, the lives of mistress and slave are torn apart. When the war brings destruction and Emancipation, can these two women, made kin by slavery, free themselves of the past to truly become sisters?"--

The Great Fire of London

Because pyrotechnology was considered a demeaning craft, there is very little about its practice in ancient texts; our knowledge of early developments is based almost entirely on interpretation of artifacts recovered by archaeology during the past century and a half. Literature in archaeology and anthropology, however, tends to concentrate on the artifact found rather than on how it was produced - on the pot or spearhead rather than the kiln or furnace. There is thus surprisingly little information on the practice and importance of pyrotechnology. The *Mastery and Uses of Fire in Antiquity*, written by an engineer with fifty years of experience in industrial research and pyrotechnology, rectifies this lack. J.E. Rehder covers the kinds of furnaces, the nature of the fuel used, and the productions created - fired clay, lime from limestone, metals from the reduction of ores, and glass from sand. He also shows convincingly that previous arguments that early deforestation resulted from furnace use cannot be supported. The *Mastery and Uses of Fire in Antiquity* provides much-needed information for anyone interested in archaeology, anthropology, and pyrotechnology.

Mastery and Uses of Fire in Antiquity

This textbook sets out to enable readers to understand fundamental aspects underlying quantum macroscopic phenomena in solids, primarily through the modern experimental techniques and results. The classic independent-electrons approach for describing the electronic structure in terms of energy bands helps explain the occurrence of metals, insulators and semiconductors. It is underlined that superconductivity and magnetism can only be understood by taking into account the interactions between electrons. The text recounts the experimental observations that have revealed the main properties of the superconductors and were essential to track its physical origin. While fundamental concepts are underlined, those which are required to describe the high technology applications, present or future, are emphasized as well. Problem sets involve experimental approaches and tools which support a practical understanding of the materials and their behaviour.

Documents considered by the Committee include the draft Broad Economic Policy Guidelines (BEPG) (7828/00). The Committee's conclusion was that the BEPGs are an indication of how far member states of the EU are being asked to sign up to a comprehensive set of inter-related economic and social policy objectives by co-ordinating their budgetary and tax policies, whether or not they are members of the euro zone.

The Benson hotel in Portland, Oregon might look like your ordinary, swanky turn-of-the century hotel, but deep in the heart of this historic icon, lie a few restless souls with secrets that won't stay buried. Amateur ghost hunters Perry Palomino and Dex Foray spend an evening exploring the hotel for their Internet show "Experiment in Terror" - but this is no ordinary hotel and this is no ordinary episode. There's someone here in the Benson, someone dead, who will push the boundaries of what the duo know about ghosts and challenge Perry's very notion of the truth.

Darker Than You Think

Personally, I Blame My Fairy Godmother

In these fifteen superb stories, this essential author of African American fiction gives us compelling portraits of a wide range of unforgettable characters, from

sassy children to cunning old men, in scenes shifting between uptown New York and rural North Carolina. A young girl suffers her first betrayal. A widow flirts with an elderly blind man against the wishes of her grown-up children. A neighborhood loan shark teaches a white social worker a lesson in responsibility. And there is more. Sharing the world of Toni Cade Bambara's "straight-up fiction" is a stunning experience.

100 Hair-Raising Little Horror Stories

A hundred years ago, the Minotaurs saved Caeli-Amur from conquest. Now, three very different people may hold the keys to the city's survival. Once, it is said, gods used magic to create reality, with powers that defied explanation. But the magic—or science, if one believes those who try to master the dangers of thaumaturgy—now seems more like a dream. Industrial workers for House Technis, farmers for House Arbor, and fisher folk of House Marin eke out a living and hope for a better future. But the philosopher-assassin Kata plots a betrayal that will cost the lives of godlike Minotaurs; the ambitious bureaucrat Boris Autec rises through the ranks as his private life turns to ashes; and the idealistic seditionist Maximilian hatches a mad plot to unlock the vaunted secrets of the Great Library of Caeli-Enas, drowned in the fabled city at the bottom of the sea, its strangeness visible from the skies above. In a novel of startling originality and riveting suspense, these three people, reflecting all the hopes and dreams of the ancient city, risk everything for a future

that they can create only by throwing off the shackles of tradition and superstition, as their destinies collide at ground zero of a conflagration that will transform the world . . . or destroy it. *Unwrapped Sky* is a stunningly original debut by Rjurik Davidson, a young master of the New Weird. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Unwrapped Sky

The elders could see nothing but smoke until they turned the corner onto the street where the fire was. And then, both of them stopped. "The synagogue!" Elder Thomas said. It had never occurred to him that anyone — even the Nazis — would do such a thing. Elder Thomas got his camera out. He snapped the shot but then heard someone say, in German, "What are you doing there?" He tucked the camera inside his coat, under his arm. He tried to appear normal, but his heart was suddenly beating hard. A man was crossing the narrow street and coming toward them. "Making pictures?" the man asked as he walked closer. Elder Thomas took a better look. He saw what he feared: the black uniform with silver trim and braided hat. Gestapo. Elder Alex Thomas wants only to teach the gospel to the people of Germany. But it soon becomes obvious that he will never complete his mission. War is coming, and that will affect not only Elder Thomas but also his family back home in Salt Lake City. In the family is Wally, Elder Thomas's younger brother, who usually just wants to have a good time, but lately doesn't seem to care much about anything. There's

his sister Bobbi, who is supposed to marry Phil Clark, the most eligible bachelor in the Salt Lake Valley. The problem is, she can't ignore her attraction to Dr. Stinson, a University of Utah professor who's not a member of the Church. And there are Elder Thomas's parents, D. Alexander Thomas, stake president and his wife, Bea, who want their children to be true to the values and ideals they've taught them. But President and Sister Thomas are finding they can't just tell their children what to do anymore, and they're worried about what will happen when the United States enters a war that no one seems able to stop. In *Rumors of War*, the first volume of the series *Children of the Promise*, author Dean Hughes recreates the era of World War II in stunning detail. But more than that, he shows how the war affects an ordinary family of Latter-day Saints. If you're interested in Church or world history, or if you're simply looking for a powerful LDS novel, you won't want to miss *Rumors of War*.

Mindsiege

Sam Parker is a vampire with a gift so strong and substantial that she is invited to partake in a test for a place in the Grand High Master Vampire's private army. She finds that not only has the army never included a woman, but it has never included a Sventé vampire; a breed that is regarded by the super strong Pagori breed and the hypnotically beautiful Keja breed to be too tame and human-like. Most refuse to take her seriously, especially a Pagori commander named Jared who she craves in spite of herself. The Grand High Master, however, sees her potential and offers her the position of Jared's co-commander to help train the newest squad in time for the impending attack on his home. Sam has to demonstrate to Jared and the squad of chauvinists why it is incredibly foolish to underestimate a wilful, temperamental, borderline-homicidal Sventé female. Warning: This novel contains an iron-willed female vampire with an energy whip, a sexist male vampire who is

determined to have her, explicit vampy sex, and a romance story with real bite.

Bud was too startled by sudden attack to pull his leg free from the stirrup; then he realized it was too late to do anything but lie there with his right leg pinned under the weight of the saddle and the body of the horse. He was aware enough to get his pistol free of his holster, but he couldn't see anything over the bulk of the horse. Michelle bolted past him, took up a shooters stance and emptied all fifteen rounds from her Glock, hit the eject button, and slammed another clip home. Bud was shouting, "Take some cover, damn it! Take some cover!" And then she was out of sight.
