Flynn Tomlinson has drifted for several years, working odd jobs when he needs the money and moving on when he doesn't. He's content with his freestyle life, not tied down, not responsible for anyone but himself. Then

he comes across a Help Wanted ad in a post office in Idaho and meets Gable Sutton. Gable can't pay Flynn until he sells his horses, but a serious accident has left him unable to work his ranch alone. Working with horses beats stacking shelves at the supermarket, and so Flynn agrees to Gable's terms. What Flynn doesn't bargain for is being captivated by this gentle, lonely man who captures his heart and moves Flynn to take on an incredible burden: saving Gable's ranch.

The Eye Book

The first GSX-R was created in 1985 as a groundbreaking departure from the ponderous sportbikes of the day. That revolutionary motorcycle took a time-honored racing credo to heart: light is right. (And another one: It can never be too fast.) Never before had the performance and design of a race bike been so faithfully carried over to the street. In the seven generations since, Suzuki has remained true to the concept of the original GSX-R: to build the most serious, track-worthy sportbike. What's more, the company's engineers have been relentless in their pursuit to refine and improve the bike.

Modern Motorcycle Technology

And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.
