YOU CAN'T MAKE THIS STUFF UP! Here is a hilarious collection that catches real-life knuckleheads in outrageous acts of brazen stupidity, giving new meaning to that famous four-letter word: "DUH"! \* The Oregon resident who was waxing his 1984 Pontiac--and somehow managed to shove the antenna up his nose . . .

GRANDMOTHER OF EIGHT MAKES HOLE IN ONE \* The Atlanta Braves pitcher who was treated for five-inch-long welts after he tried to iron his polo shirt while wearing it . . . MINERS REFUSE TO WORK AFTER DEATH \* The inmate at a Chesapeake Correctional Facility who filed a five million dollar lawsuit against himself . . .

DRUNK GETS NINE MONTHS IN VIOLIN CASE \* The woman who couldn't stand the discomfort of having a callus on her right foot, so she blew off her big toe

with a shotgun . . . Radio personality John "Kato" Machay's lively compilation of news stories, headlines, and courtroom gaffes proves hands down that truth is dumber than fiction! REMEMBER: To err may be human, but to laugh out loud is divine.

### **The Educators' Handbook to Interactive Videodisc**

This publication aims to provide a valuable and practical tool for those countries where court decisions in the copyright domain are scarce or non-existent - either because copyright law is a fairly new phenomenon or because legislation has not been extensively applied. To that effect, this publication examines a carefully selected number of court decisions illustrating general principles of copyright law, drawn from common law, civil law and the legislative systems of Arab countries. As the basic principles illustrated here are to a large extent commonly shared, many of the cases presented have a wider relevance, going beyond the confines of the legal system of which they form a part. L'objet du présent recueil est d'offrir un outil précieux et commode aux pays dont la jurisprudence en matière de droit d'auteur est restreinte ou inexistante, soit parce que le droit d'auteur est une réalité relativement nouvelle pour eux, soit parce que la législation en vigueur dans ce domaine n'a pas été largement appliquée. À cette fin, le présent ouvrage expose un certain nombre de décisions de justice, soigneusement sélectionnées,

qui illustrent les principes généraux du droit d'auteur et qui émanent de la common law, du droit civil et des systèmes législatifs des pays arabes. Compte tenu de la valeur quasi universelle de ces principes fondamentaux, la pertinence des cas présentés va bien souvent au-delà des limites du système juridique dont ils relèvent.

This overview of interactive videodisc technology is designed to assist educators in finding the appropriate equipment and software for any specific application. The handbook may also serve as a starting point for many educators who know nothing of the technology and assist them in deciding whether this technology is worth pursuing as an educational tool in specific situations. Although not comprehensive, the listings reflect a good portion of the videodisc-related products available today and the prices provide a good indication of the general price range of specific items. The handbook contains 10 chapters: (1) Introduction to Videodiscs; (2) Overview of Laser Disc Systems; (3) Selecting a Laser Videodisc Player; (4) Video

Playback Units; (5) Videodisc Interface Units; (6) Disc Player Peripherals; (7) Videodisc System Packages; (8) Educational Videodisc Software; (9) Interactive Videodisc Authoring Languages; and (10) Videodisc Care and Maintenance. Appendices include directories of laser disc players; television monitors and projects; laser disc interfaces; laser disc peripherals; laser disc system packages; videodisc software (listed by subject area); videodisc mastering options; interactive authoring languages; service information; and videodisc resources, which includes a manufacturer's index. Every company has a personality. Does yours help or hinder your results? Does it make you fit for growth? Find out by taking the quiz that's helped 50,000 people better understand their organizations at OrgDNA.com and to learn more about Organizational DNA. Just as you can understand an individual's personality, so too can you understand a company's type—what makes it tick, what's good and bad about it. Results explains why some organizations bob and weave and roll with the punches to consistently deliver on commitments and produce great results, while others can't leave their corner of the ring without tripping on their own shoelaces. Gary Neilson and Bruce Pasternack help you identify which of the seven company types you work for—and how to keep what's good and fix what's wrong. You'll feel the shock of recognition ("That's me, that's my company") as you find out whether your organization is:

- **Passive-Aggressive** ("everyone agrees, smiles, and nods, but nothing changes"): entrenched underground resistance makes getting anything done like trying to nail Jell-O to the wall
- **Fits-and-Starts** ("let 1,000 flowers bloom"): filled with smart people pulling in different directions
- **Outgrown** ("the good old days meet a brave new world"): reacts slowly to market developments, since it's too hard to run new ideas up the flagpole
- **Overmanaged** ("we're from corporate and we're here to help"): more reporting than working, as managers check on their subordinates' work so they can in turn report to their bosses
- **Just-in-Time** ("succeeding, but by the skin of our teeth"): can turn on a dime and create real breakthroughs but also tends to burn out its best and brightest
- **Military Precision** ("flying in formation"): executes brilliant strategies but usually does not deal well with events not in the playbook
- **Resilient** ("as good as it gets"): flexible, forward-looking, and fun; bounces back when it hits a bump in the road and never, ever rests on its laurels

For anyone who's ever said, "Wow, that's a great idea, but it'll never happen here" or "Whew, we pulled it off again, but I'm tired of all this sprinting," Results provides robust, practical ideas for becoming and remaining a resilient business. Also available as an eBook From the Hardcover edition.

To be successful in business you must be able to attract the right clients and persuade them to buy. However, on the internet, people only see what the search engines direct them to and the competition for those top spots is fierce. So how do you ensure that your business is front-and-center when prospects are searching for solutions? The answer is The Findability Formula. The Findability Formula is for anyone who wants to improve results from Internet marketing. The book is specifically written for business owners who are frustrated with a website that is not showing up in search results and not generating business.
