Born to Be Riled

Car-tastrophes

An addition to a series about the history of the Olympic games describes the origins, sports, other

events, and end of the ancient Olympic games.

Rocky Mountain Wildflowers

This book is an introduction to the current developments in model-theoretic semantics, which has become an essential part of the work in theoretical linguistics over the last decade. The author examines the model structure of Montague's theory and then presents elaborations on this basic model that have been of particular importance in the last few years: generalized quantifiers, the introduction of more structure in the domain of individuals, properties as primitive elements in the model, situations and similar 'smaller' worldlike entities. Nothing is presupposed about knowledge of the mathematical and logical tools used in formal semantics, and Bach presents the informal with a minimum of formalism.

Naff Motors

Automakers are as prone to turn out clunkers as politicians are to lie. Their cars may be ugly, misconceived, badly built, diabolical to drive, ridiculously thirsty, or just plain unreliable. So which were the worst of the past 20 years?

Diesel Common Rail Injection

No one writes about cars like Jeremy Clarkson. Jeremy appreciates the more important things in life. Don't worry, we'll get to the cars. Eventually. But first we

should consider: - The case for invading France - The overwhelming appeal of a nice sit-down - The inconvenience of gin and tonic - Why clothes are no better than ice cream - Spot-welding with the Duchess of Kent - And why Denmark is the best place in the world Armed with conviction, curiosity, enthusiasm and a stout pair of trousers, Jeremy hurtles around the world in search of answers to life's puzzles.

Taken for a Ride

Here is the book that exposed the Daimler-Chrysler "merger of equals" as a bold German takeover of an industrial icon. Taken for a Ride reveals the shock waves felt around the world when Daimler-Benz bought Chrysler for \$36 billion in 1998. In a gripping narrative, Bill Vlasic and Bradley A. Stertz go behind the scenes of the defining corporate drama of the decade -- and in a new epilogue chart its chaotic aftermath.

Dinky the Elf

Jalil Muntaqim is a former member of the Black Panther Party and the Black Liberation Army. For over forty years, Jalil has been a political prisoner, and one of the New York Three (NY3), in retaliation for his political activism. *Escaping the Prism Fade to Black* is a collection of Jalil's poetry and essays, written from behind the bars of Attica prison. Combining the personal and the political, these texts afford readers with a rare opportunity to get to know a man who has spent most of his life-over forty years-behind bars for his involvement in the Black Liberation Movement of the 1960s and early 1970s. Jalil's poetry deals with a range of themes-spirituality, history, and the struggle for justice; depression, humor, and sexual desire; the pain and loneliness of imprisonment, the ongoing racist oppression of New Afrikan people in the United States, and the need to find meaning in one's life. At the same time, his political essays show him to be as eager as ever to intervene in and grapple with the events of today, always with an eye to concretely improving the lives of the oppressed. *Escaping the Prism Fade to Black* also includes an extensive examination of the U.S. government's war against the Black Liberation Army in general, and Jalil and the New York Three in particular, by renowned scholar-activist Ward Churchill. In this highly detailed essay, "The Other Kind: On the Integrity, Consistency, and Humanity of Jalil Abdul Muntaqim," Churchill traces this story from the FBI's murderous COINTELPRO repression of the Black Panther Party, through the NEWKILL operation which led to the NY3's

incarceration, to the more recent Phoenix Taskforce which orchestrated the re-prosecution of Jalil and other veteran Black activists, in the case of the San Francisco 8. With illustrations by revolutionary prisoner-artists Zolo Agona Azania and Kevin "Rashid" Johnson, as well as various outside artist-activists.

Iacocca

One of a very few books that is specific to the Sunbeam Tiger. While the original title may have inadvertently mislead the reader into thinking that this was just another "How To Modify Your Ford 260/289 V8," this book goes way beyond the engine. It covers all possible areas of modification including the induction system, clutch, transmission, differential, suspension, wheels, tires, custom accessories, camshafts, Holley carburetors,

speedometer correction, factory options, special part numbers, torque specifications, wiring diagram and a complete set of flat rate tables. It discusses SCCA, NHRA and AHRA modifications and includes a 40-page "step-by-step" photo section with 77 illustrations. The ultimate Sunbeam Tiger reference that has been out-of-print and unavailable for many years, this book is highly sought after on the secondary market. A "must-have" book for any Tiger enthusiast or owner, or anyone contemplating the purchase or restoration of a Tiger. A reproduction of the original 1967 publication.

“Vintage Iacocca . . . He is fast-talking, blunt, boastful, and unabashedly patriotic. Lee Iacocca is also a genuine folk hero. . . . His career is

breathhtaking.”—Business Week He’s an American legend, a straight-shooting businessman who brought Chrysler back from the brink and in the process became a media celebrity, newsmaker, and a man many had urged to run for president. The son of Italian immigrants, Lee Iacocca rose spectacularly through the ranks of Ford Motor Company to become its president, only to be toppled eight years later in a power play that should have shattered him. But Lee Iacocca didn’t get mad, he got even. He led a battle for Chrysler’s survival that made his name a symbol of integrity, know-how, and guts for millions of Americans. In his classic hard-hitting style, he tells us how he changed the automobile industry in the 1960s by creating the phenomenal Mustang. He goes behind the scenes for a look at Henry Ford’s reign of intimidation and manipulation. He recounts the miraculous rebirth of Chrysler from near bankruptcy to repayment of its \$1.2 billion government loan so early that Washington didn’t know how to cash the check.

We have an inherent fear of new ideas. We grow up in

an environment that forces us to fit in, makes us believe in common goals that are in line with our financial bracket, and ensures we stay within these parameters all our lives. No wonder we're so far away from innovation. Innovation comes from taking risks, and risks can only be taken once fears are abandoned. When Mahindra & Mahindra first ventured into the automobiles industry, there was every reason for the company to fail. Today, it's one of the leaders of the industry. What set its destiny apart? Change the Rules, Anand Mahindra's inspiring address at the convocation ceremony of the graduating class of 2014 at IIM Ahmedabad not only reveals the secret behind the organization's unprecedented success but also highlights the dangers of staying in the comfort zone.
