The Social Sciences

The Babe & I

Word Nerds takes you inside classrooms at a high-poverty urban school and shows how two teachers implement creative, flexible vocabulary instruction that improves their students' word knowledge and confidence, enhances classroom community, and increases achievement. Leslie Montgomery and Margot Holmes Smith weave vocabulary into each school day using multisensory instruction that includes music, art, literature, movement, games, drama, writing, test-taking skills, and technology. Along the way, they turn every student into a lover of language. With support from literacy specialist Brenda Overturf, Leslie and Margot have developed a five-part plan--introducing new words in context, adding related synonyms and antonyms, engaging students in several days of active learning, celebrating new words, and assessing vocabulary development--that teaches all students to learn and love vocabulary. This easy-to-read reference explains how to plan,

teach, and assess based on the latest research in vocabulary instruction and learning. Forget copying definitions from the dictionary and completing boring worksheets! After incorporating Leslie's and Margot's vocabulary plan into your daily instruction, you and your students can become word nerds, too!
