Decision Making in Marketing and Finance

Employment Law: Going Beyond Compliance to Engagement and Empowerment, by Rosemarie Feuerbach Twomey, focuses on the laws that have the greatest impact on the relationships between employers and employees—in particular, the common law governing the employment relationship which has dramatically changed the application of the employment at will doctrine, and the many statutory requirements of fair employment practices that promote equal opportunity to all employees. The book is premised on three core beliefs: 1. Managers can gain a meaningful understanding of the laws that apply to the employer-employee relationship and the implications of those laws for how business is conducted. 2. Compliance with employment laws is best accomplished by following effective management practices that include fair treatment of workers. 3. Understanding, appreciating, and following the spirit of employment laws—and not being unreasonably constrained by the letter of those laws—will contribute significantly to the strategic goals of any organization.

Peter Drucker's Way to the Top

The Second Edition of this bestselling B2B marketing textbook offers the same accessible clarity of insight, combined with updated and engaging examples. Each chapter contains a detailed case study to further engage the reader with the topics examined. - Featuring updated case studies and a range of new examples. - Incorporating additional coverage of B2B branding and the B2B strategic marketing process, and issues of sustainability. - Extended coverage of Key Account Management - Online lecturer support including PowerPoint slides and key web links Drawing on their substantial experience of business-to-business marketing as practitioners, researchers and educators, the authors make this exciting and challenging area accessible to advanced undergraduate and to postgraduate students of marketing, management and business studies. Praise for the Second Edition: 'I found that the first edition of Brennan, Canning and McDowell's text was excellent for raising students' awareness and understanding of the most important concepts and phenomena associated with B2B marketing. The second edition should prove even more successful by using several new case studies and short

'snapshots' to illustrate possible solutions to common B2B marketing dilemmas, such as the design and delivery of business products and services, the selection of promotional tools and alternative routes to market. The new edition also deals clearly with complex issues such as inter-firm relationships and networks, e-B2B, logistics, supply chain management and B2B branding' - Michael Saren, Professor of Marketing, University of Leicester 'This textbook makes a unique contribution to business-to-business teaching: not only does it provide up-to-date cases and issues for discussion that reach to the heart of business-to-business marketing; it also brings in the latest academic debates and makes them both relevant and accessible to the readers. A fantastic addition to any library or course' - Dr Judy Zolkiewski, Senior Lecturer in Business-to-Business Marketing, Manchester Business School 'The advantage of the approach taken by Brennan and his colleagues is that this book manages to convey both the typical North American view of B2B marketing as the optimisation of a set of marketing mix variables, and the more emergent European view of B2B Marketing as being focused on the management of relationships between companies. This updated second edition sees the addition of a number of 'snapshots' in each chapter that bring the subject alive through the description of current examples, as well as some more expansive end-of-chapter case studies. It is truly a most welcome addition to the bookshelves of those students and faculty interested in this facet of marketing' - Peter Naudé, Professor of Marketing, Manchester Business School 'The strength of this text lies in the interconnection of academic theory with real world examples. Special

attention has been given to the role that relationships play within the Business-to-business environment, linking these to key concepts such as segmentation, targeting and marketing communications, which importantly encompasses the role personal selling as relationshipmmunications building and not just order taking. With good coverage of international cultural differences this is a valuable resource for both students of marketing and sales' - Andrew Whalley, Lecturer in Business-to-Business Marketing, Royal Holloway University of London 'The text provides an authoritative, up-to-date review of organisational strategy development and 'firmographic' market segmentation. It provides a comprehensive literature review and empiric examples through a range of relevant case studies. The approach to strategy formulation, ethics and corporate social responsibility are especially strong' - Stuart Challinor, Lecturer in Marketing, Newcastle University 'This revised second edition offers an excellent contemporary view of Business-to-Business Marketing. Refreshingly, the text is packed with an eclectic mix of largely European case studies that make for extremely interesting reading. It is a 'must read' for any undergraduate or postgraduate Marketing student' - Dr Jonathan Wilson, Senior Lecturer, Ashcroft International Business School, Anglia Ruskin University, Cambridge

Strategic Marketing Problems

Marketing attempts to influence the way consumers behave. These attempts have

implications for the organizations making the attempt, the consumers they are trying to influence, and the society in which these attempts occur. We are all consumers and we are all members of society, so consumer behavior, and attempts to influence it, are critical to all of us. This text is designed to provide an understanding of consumer behavior. This understanding can make us better consumer, better marketers, and better citizens. A primary purpose of this text is to provide the student with a usable, managerial understanding of consumer behavior.-Pref.

Looseleaf for Marketing: The Core

As interest in MBA programs and business schools more generally continues to grow, it is essential that teachers and students analyse their established strategy for decision making. The successful use of case studies in business schools shows the superior outcomes of an interdisciplinary approach to problem solving. Disappointingly, functional departmental silos within universities still exist and keep problem solvers from seeing all the effects of a given issue. In addition to providing teaching material, Decision Making in Marketing and Finance provides motives and strategies to break down functional silos in making informed and effective business and finance decisions. Koku achieves his goal by showing how value can be created for shareholders and other stakeholders, linking marketing

and finance decision making, and providing much-needed teaching materials for an interdisciplinary approach to case analysis.

Sports Marketing presents this field as a new discipline, helping readers gain a stronger understanding of how to apply marketing strategies and tactics within the sports marketing environment. Dr. Fullerton crafted this new text to present the discipline of sports marketing in two broad perspectives. The first part of the text (Chapters 3 - 14) deals with the idea of the marketing of sports products,

increasing media audiences, increasing live attendance, the selling of sports-related products, and more. The second part of the text (Chapters 15 - 22) examines using a sports platform as a foundation for the marketing of non-sports products, including examples such as Tiger Woods' endorsement of Tag Heuer watches and Coca-Cola's sponsorship of soccer's World Cup. This is not simply a basic marketing text using sports examples. This new title fills a gap for this newly recognized course area by presenting a strong business perspective through its content. It looks at the economic impact of the industry and identifies an array of career opportunities for students interested in sports marketing. There is comprehensive coverage of how sports are used as a marketing platform and an abundance of real-world national and international examples to support the material.

Given the dramatic changes in the field of marketing, it is a sure bet that the job of leading marketing manager's contributions to the organization and its customers, clients, and partners has changed at the same

level. Yet, no marketing management book on the market today fully and effectively captures and communicates to students how marketing management is really practiced in the 21st century business world. Clearly, it is time for an updated approach to teaching and learning within the field. Marketing Management 3e is designed to fulfill this need.
