The story of John Chang, the first man to be documented performing pyrokinesis, telekinesis, levitation, telepathy, and other paranormal abilities. • The author, a mechanical engineer, provides scientific explanations of how these powers work. • For the first time, the discipline of Mo-Pai is introduced to the West. In 1988 the documentary Ring of Fire was released to great acclaim. The most startling sequence in the film is that of a Chinese-Javanese acupuncturist who demonstrates his full mastery of the phenomenon of chi, or bio-energy, by generating an electrical current within his body, which he uses first to heal the filmmaker of an eye infection and then to set a newspaper on fire with his hand. Ring of Fire caused thousands to seek out this individual, John Chang, in pursuit of instruction. Of the many Westerners who have approached him, John Chang has accepted five as apprentices. Kosta Danaos is the second of those five. In his years of study with John Chang, Danaos has witnessed and experienced pyrokinesis, telekinesis, levitation, telepathy, and much more exotic phenomena. He has spoken with spirits and learned the secrets of reincarnation. Most important, he has learned John Chang's story. John Chang is the direct heir to the lineage of the sixth-century b.c. sage Mo-Tzu, who was Confucius's greatest rival. His discipline, called the Mo-Pai, is little-known in the West and has never before been the subject of a book. Now, John Chang has decided to bridge the gap between East and West by allowing a book to be published revealing the story of his life, his teachings, and his powers. It will surely expedite what may well become the greatest revolution of the twenty-first century--the verification and study of bio-energy.

The gripping, true story of a brutal serial killer who unleashed his own reign of terror in Nazi-Occupied Paris. As decapitated heads and dismembered body parts surfaced in the Seine, Commissaire Georges-Victor Massu, head of the Brigade Criminelle, was tasked with tracking down the elusive murderer in a twilight world of Gestapo, gangsters, resistance fighters, pimps, prostitutes, spies, and other shadowy figures of the Parisian underworld. But while trying to solve the many mysteries of the case, Massu would unravel a plot of unspeakable deviousness. The main suspect, Dr. Marcel Petiot, was a handsome, charming physician with remarkable charisma. He was the "People's Doctor," known for his many acts of kindness and generosity, not least in providing free medical care for the poor. Petiot, however, would soon be charged with twenty-seven murders, though authorities suspected the total was considerably higher, perhaps even as many as 150. Petiot's trial quickly became a circus. Attempting to try all twenty-seven cases

at once, the prosecution stumbled in its marathon cross-examinations, and Petiot, enjoying the spotlight, responded with astonishing ease. Soon, despite a team of prosecuting attorneys, dozens of witnesses, and over one ton of evidence, Petiot's brilliance and wit threatened to win the day. Drawing extensively on many new sources, including the massive, classified French police file on Dr. Petiot, *Death in the City of Light* is a brilliant evocation of Nazi-Occupied Paris and a harrowing exploration of murder, betrayal, and evil of staggering proportions.

## **Final Words From the Cross**

Travelers differ. At one extreme are random travelers who see what they accidentally bump into. At the other extreme are the lock-step travelers who follow a banner (or a red umbrella) and look when and where a voice tells them to look. Between these extremes are the guide-book travelers who identify the whereabouts of those sites that interest them and they plan their sightseeing accordingly. If a traveler's interests are captivated by the arts, guide books can be very helpful. For example, the table of contents of a current guide book for travelers going to Germany has sections on architecture, art, literature, music and cinema. The index gives page references for famous writers, musicians, and artists. Yet, while Germany was a dominant force in physical science during the 19th and into the 20th centuries and while the names and photos of prominent German physical scientists who worked in this period are sprinkled through the pages of textbooks, only one scientist is mentioned by name: Albert Einstein is identified as the most famous citizen of Ulm.

### **Shorter Slang Dictionary**

Those who've heard T. R. Reid's weekly commentary on National Public Radio or read his far-flung reporting in National Geographic or The Washington Post know him to be trenchant, funny, and cutting-edge, but also erudite and deeply grounded in whatever subject he's discussing. In *Confucius Lives Next Door* he brings all these attributes to the fore as he examines why Japan, China, Taiwan,

and other East Asian countries enjoy the low crime rates, stable families, excellent education, and civil harmony that remain so elusive in the West. Reid, who has spent twenty-five years studying Asia and was for five years The Washington Post's Tokyo bureau chief, uses his family's experience overseas--including mishaps and misapprehensions--to look at Asia's "social miracle" and its origin in the ethical values outlined by the Chinese sage Confucius 2,500 years ago. When Reid, his wife, and their three children moved from America to Japan, the family quickly became accustomed to the surface differences between the two countries. In Japan, streets don't have names, pizza comes with seaweed sprinkled on top, and businesswomen in designer suits and Ferragamo shoes go home to small concrete houses whose washing machines are outdoors because there's no room inside. But over time Reid came to appreciate the deep cultural differences, helped largely by his courtly white-haired neighbor Mr. Matsuda, who personified ancient Confucian values that are still dominant in Japan. Respect, responsibility, hard work--these and other principles are evident in Reid's witty, perfectly captured portraits, from that of the school his young daughters attend, in which the students maintain order and scrub the floors, to his depiction of the corporate ceremony that welcomes new employees and reinforces group unity. And Reid also examines the drawbacks of living in such a society, such as the ostracism of those who don't fit in and the acceptance of routine political bribery. Much Western ink has been spilled trying to figure out the East, but few journalists approach the subject with T. R. Reid's familiarity and insight. Not until we understand the differences between

Eastern and Western perceptions of what constitutes success and personal happiness will we be able to engage successfully, politically and economically, with those whose moral center is governed by Confucian doctrine. Fascinating and immensely readable, Confucius Lives Next Door prods us to think about what lessons we might profitably take from the "Asian Way"--and what parts of it we want to avoid.

In life and in death, Jesus' words were powerful and meaningful. Despite the serious effort and increased pain required for Jesus to speak as he hung on the cross, Jesus spoke seven "final words"—statements that have much to teach us about Jesus, his Father, and ourselves: Father Forgive Them Today You Will Be with Me in Paradise Behold Your Son...Behold Your Mother My God, My God, Why Have You Forsaken Me? I Thirst It Is Finished . . . Into Your Hands I Commit My Spirit Postscript: The Words After That In 24 Hours That Changed the World, Adam Hamilton took us on a Lenten journey through the last day of Jesus' life. Now in this inspiring follow-up book, Hamilton explores these final words as seen and heard through the eyes and ears of those who stood near the cross. Each chapter begins with the biblical account followed by a first-person story as might have been told from the viewpoint of one of the characters at the cross. Then the chapter explores the meaning of Jesus' dying words for our lives today. Following the last statement,

a postscript recounts the words Jesus spoke following his resurrection, including what truly were the final words Jesus spoke while walking this earth. Join the crowd now and experience the final words from the cross. Final Words from the Cross offers six chapters/sessions plus a postscript chapter/session, so that classes have the option of a seventh session on Easter Sunday.

"When the heat is on and the battle is raging, know that as long as you are standing strong in the Lord, you won't be shot down or burned up by your circumstances. Think in terms of God's power. As long as you stand with God-and don't give up-you win." Most ministers and psychologists agree that personal change comes from within. And that change can only occur if you take a careful look at your own life and experience. That's certainly what Stormie Omartian discovered. Over thirty years ago she was so depressed, she considered suicide. Then she went through the seven-step process she described in her bestselling book, *Lord, I Want to Be Whole*. Now Stormie makes this process available to you in a personal walk to emotional well-being a walk with the truth of Scripture and the power of prayer at your side. Throughout your journey you will be observing the lives of some familiar people in the Bible. Many of these people had the same faults-and suffered the same problems-you do. The way the Lord guided them will be a path for you to follow. Each week you will work through interactive questions and thought-provoking Scriptures that will enable you to determine who you are, what you're doing, and where you're going. And then you will establish some guidelines for your future. "The healing and restoration I found is there for you too," Stormie asserts. "Whether your hurt is from scars as far back as early childhood or from this week's untimely severing of a precious relationship, you can be whole spiritually and emotionally." This easy-to-use workbook serves as an
