## **The Rime of the Ancient Mariner**

"Chronicles the period between the 4th and 12th centuries, when rulers in Europe, the Mideast and Asia turned to religious reasons to justify political and military action, a time that included the development of Islam, the crowning of Charlemagne and the rise of the T'ang Dynasty. By the author of The History of the Ancient World."

## **HMH Social Studies - Ancient Civilizations**

A lively and engaging narrative history showing the common threads in the cultures that gave birth to our own. This is the first volume in a bold new series that tells the stories of all peoples, connecting historical events from Europe to the Middle East to the far coast of China, while still giving weight to the characteristics of each country. Susan Wise Bauer provides both sweeping scope and vivid

attention to the individual lives that give flesh to abstract assertions about human history. Dozens of maps provide a clear geography of great events, while timelines give the reader an ongoing sense of the passage of years and cultural interconnection. This old-fashioned narrative history employs the methods of “history from beneath”—literature, epic traditions, private letters and accounts—to connect kings and leaders with the lives of those they ruled. The result is an engrossing tapestry of human behavior from which we may draw conclusions about the direction of world events and the causes behind them.

## **The History of the World Quiz Book**

Looking at ten popular Christian slogans in the light of Scripture, this book encourages readers to reach for a deeper, well-grounded faith that engages the intellect as well as the heart with the Bible.

## **Basics of Biblical Greek Grammar**

A famous 5th-8th grade world history text. Guides the student from Creation through the Flood, pre-historic people, the ancient East, Greeks, Romans, the triumph of the Church, Middle Ages, Renaissance, discovery of the New World and Protestant Revolt, ending with the early exploration of the New World. A great asset for home-schoolers and Catholic schools alike!

A Short History of the Ancient World begins with the Bronze Age and ends with the collapse of the Roman Empire. Rather than restricting his analysis to the Greek and Roman experience, Rauh introduces students to ancient Africa, Israel, Egypt, Iran, China, and the Indian subcontinent. To aid students on their journey into the

ancient world, Rauh has provided key terms and definitions, "What Have We Learned" review points, and an engaging art program that includes 51 images within the "Art in Focus" and "Materials and Techniques" features. Informative maps, chronologies, and tables also give students a closer look into the rise and fall of these great civilizations. Learning extends beyond the book with UTP's History Matters website ([www.utphistorymatters.com](http://www.utphistorymatters.com)) which includes relevant essay and multiple choice questions. With *A Short History of the Ancient World*, Rauh has crafted a comprehensive exploration of humanity's most fascinating early civilizations.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Basics of the Biblical Greek is an entirely new, integrated approach to teaching and learning New Testament Greek. It makes learning Greek a natural process and shows from the very beginning how an understanding of Greek helps in understanding the New Testament. Basics of Biblical Greek: combines the best of the deductive and the inductive approaches, explains the basics of English grammar before teaching Greek grammar, uses from the very beginning parts of verses from the New Testament instead of 'made-up' exercises, includes at the

beginning of every lesson a brief devotional, written by a well-known New Testament scholar, that demonstrates how the principles taught in the lesson apply directly to an understanding of the biblical text, is the most popular first-year Greek course used in colleges and seminaries today, comes with an interactive study aid CD-ROM, containing an eight-minute greeting from the author and the fun, helpful, and graphical vocabulary-memorizing program 'Learning the Basics of Biblical Greek' (runs on Power Mac and Windows 95), where you can hear Greek words pronounced and sung in more than 200 familiar hymns. The CD-ROM also contains the powerful Greek vocabulary-drilling programs Flashworks(TM) and Parseworks from Teknia Language Tools (runs on Macintosh and Windows 3.1 and 95). A separate workbook is also available. And complimentary teacher helps are located on the author's website (<http://www.homeschooling.org>).

## **World History & Geography**

Taking the history of the world as its basis might seem a mammoth task but this fascinating book does just that, breaking the whole lot down into ten enthralling chapters that cover the ages and the world, from the Bronze Age up until the end of the Second World War. With over 5,500 years to choose from, and a whole world of events, you can be sure there is no shortage of intriguing history to explore. From the first empires and civilizations, through the Ancient world of the Middle East and Africa; the Parthian Empire; the Golden Age of India; the ancient dynasties of China; the founding of Rome and the Roman republic; Peruvian cultures; The Middle Ages; the Byzantine Empire; Mayan culture; the Crusades; the rise of the Ottoman Empire; the Renaissance - this far-reaching book will test the knowledge of any history lover and provide the ultimate challenge for even the most knowledgeable historian. With questions ranging through multiple choice, truth or fiction, maps and pictures, you will find there is always something new to learn about the world.

## **Ancient Civilizations Through the Renaissance**

This innovative and user-friendly workbook, now combined into a single volume organized chronologically, guides students and instructors through the ideas and methods of world history. It provides all the elements necessary to support a world history course, including narrative, projects, primary sources, and a detailed glossary of terms.

## **The History of the Decline and Fall of the Roman Empire**

### **Ancient Times**

Taking a populist approach to a serious subject, Myke Cole combines a novelist's flair for drama with an ancient historian's eye for detail to create a unique book that delves into one of the most popular areas of the Ancient World. From the time of Ancient Sumeria, the heavy infantry phalanx dominated the battlefield. Armed with spears or pikes, standing shoulder to shoulder with shields interlocking, the men of the phalanx presented an impenetrable wall of wood and metal to the

enemy. Until, that is, the Roman legion emerged to challenge them as masters of infantry battle. Covering the period in which the legion and phalanx clashed (280–168 BC), Myke Cole delves into their tactics, arms and equipment, organization and deployment. Drawing on original primary sources to examine six battles in which the legion fought the phalanx--Heraclea (280 BC), Asculum (279 BC), Beneventum (275 BC), Cynoscephalae (197 BC), Magnesia (190 BC), and Pydna (168 BC)--he shows how and why the Roman legion, with its flexible organization, versatile tactics and iron discipline, came to eclipse the hitherto untouchable Hellenistic phalanx and dominate the ancient battlefield.

### **Exploring World History**

"Fascinating. Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, *New York Review of Books*) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.

### **Science in the Ancient World**

Covers everything from earth sciences to astronomy; from climate and habitats to human arts and cultures; from ancient history to cutting-edge technology; and descriptions, flags, and statistics of all the countries in the world.

### **Modern World History California Edition**

This far-reaching reference is designed with many entry points and a visually engaging format to satisfy the curious browser, the student researcher, and the earnest knowledge seeker alike.

### **Discovering Our Past**

### **Questions to All Your Answers**

An extremely valuable and helpful resource that will save hours for the busy teacher or homeschooling parent. It will also enable the 5th-8th grade student to work his way independently through the 37 chapters of *The Old World and America*. Clear, easy to use, well laid out. Gives page numbers for easy reference.

Any potential difficulties are noted. Makes using the text a pleasure.

## **World History 2016 Modern Student Edition Grade 11**

### **The History of the Medieval World: From the Conversion of Constantine to the First Crusade**

E. H. Gombrich's *Little History of the World*, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the *Little History* brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.
