H.P. Lovecraft: The Complete Fiction Omnibus Collection

At the Mountains of Madness is a science fiction-horror novella by American author H. P. Lovecraft, written in February/March 1931 and rejected that year by Weird Tales editor Farnsworth Wright on the grounds of its length. It was originally serialized in the February, March, and April 1936 issues of Astounding Stories. It has been reproduced in numerous collections. The story details the events of a disastrous expedition to the Antarctic continent in September 1930, and what was found there by a group of explorers led by the narrator, Dr. William Dyer of Miskatonic University. Throughout the story, Dyer details a series of previously untold events in the hope of deterring another group of explorers who wish to return to the continent.

Alice's Adventures in Wonderland and Other Tales

Following on from the phenomenal success of NECRONOMICON comes ELDRITCH TALES. Howard Phillips Lovecraft died at the age of 47, but in his short life he turned out dozens of stories which changed the face of horror. His extraordinary imagination spawned both the Elder God Cthulhu and his eldritch cohorts, and the strangely compelling town of Innsmouth, all of which feature within these pages. This collection gathers together the rest of Lovecraft's rarely seen but extraordinary short fiction, including the whole of the long-out-of-print collection FUNGI FROM YOGGOTH. Many of these stories have never been available in the UK! Stephen Jones, one of the world's foremost editors of dark fiction, will complete the Lovecraft story in his extensive afterword, and award-winning artist Les Edwards will provide numerous illustrations for this must-have companion volume to NECRONOMICON.

The Complete Fiction Collection vol III

This supplement to the two-volume Pulp-Lit Omnibus Collection of the work of H.P. Lovecraft presents all the works of weird fiction which he ghostwrote or on which he collaborated with another author. Highlights of this volume include: - Under the Pyramids, with Harry Houdini; - The Mound, with Zealia Bishop; - Two Black Bottles, with Wilfred Blanch Talman; - The Horror in the Burying-Ground, with Hazel Heald; - The Disinterment, with Duane W. Rimel; - The Night Ocean, with Robert Barlow; - In the Walls of Eryx, with Kenneth J. Sterling; - The Electric Executioner, with Adolphe de Castro; - The Diary of Alonzo Typer, with William Lumley; - And over 20 more. Although none of them rise to the level of quality of Lovecraft's own by-lined work, the majority of these collaborations are still wonderful stories. They have a real contribution to make to the meta-story of Lovecraft's creative life; and they reveal aspects to Lovecraft's personality and especially his sense of humor that his more serious works seldom allow us to glimpse. The reason for this is easily understood. When writing or revising a story for another writer, Lovecraft was able to fully relax. He knew (or thought he knew) that these stories would not affect his reputation as a literary figure; his name was not on them. So the terrible tension that dogged him throughout his literary life, the tension that kept him in a state of virtual creative paralysis for the last several years of his life, fell away like an old cloak, and his real style -- his relaxed, chatting-with-friends style -- was able to shine through. In these collaborative stories we get to see glimpses of Lovecraft's wry humor, kindly and benevolent but edged with a gently sardonic erudition. We also get to roll in the kind of over-the-top campiness that one just doesn't see in most of his bylined stuff (after "Herbert West, Reanimator," that is) to the point where one wonders if he's secretly engaging in a little self-parody. One of the reasons Lovecraft's output was so scant was that his almost obsessive perfectionism and severe self-criticism kept him diligently polishing and perfecting his own stories long past the point at which it made sense to continue doing so. This he could certainly not afford to do in a work-for-hire job that would pay him only \$15 or \$20. So in these anonymized stories we get to see Lovecraft's work as it might have appeared in his second or third drafts -- rough, sometimes unsubtle, often crammed with all-too-familiar buzzwords like "eldritch" and "cyclopean," yet eminently, fundamentally, and wonderfully Lovecraftian.

Necronomicon (Illustrated)

Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted

during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself.

H.P. Lovecraft

Lovecraft's terrifying tales have influenced generations of horror writers. His otherworldly visions of cosmic horrors, alien

beings, and a world not quite our own remain immensely powerful and able to terrify even the most resolute readers. This collection spans the breadth of Lovecraft's literary career, from his early forays into the Dreamlands to his mature writings of the Cthulhu mythos. H. P. Lovecraft's petrifying yet fascinating stories took their inspiration from a multitude of literary influences, including the mysterious Arabian Nights, the capricious deities and heroes of Greek mythology, and the lyrical horrors of the gothic tales told to him by his grandfather. His writing gave voice to the belief that there are some things in this world that can never be understood. This collection features several of H. P. Lovecraft's most iconic tales, including: The Call of Cthulhu The Whisperer in Darkness The Thing on the Doorstep The Lurking Fear The Shadow Over Innsmouth The Shunned House From Beyond Pickman's Model The Nameless City The Dreams in the Witch House

WIKIPEDIA says: 'H.P. Lovecraft's reputation has grown tremendously over the decades, and he is now commonly regarded as one of the most important horror writers of the 20th century, exerting an influence that is widespread, though often indirect.' His tales of the tentacled Elder God Cthulhu and his pantheon of alien deities were initially written for the pulp magazines of the 1920s and '30s. These astonishing tales blend elements of horror, science fiction and cosmic terror that are as powerful today as they were when they were first published. It will introduce a whole new generation of readers to Lovecraft's fiction, as well as being a must-buy for those fans who want all his work in a single, definitive volume.

"Ibid" is a mock biography of the Roman scholar Ibidus (486-587), whose masterpiece was Op. Cit., "wherein all the significant undercurrents of Graeco-Roman thought were crystallized once and for all." The piece traces the skull of Ibidus, once the possession of Charlemagne, William the Conqueror and other notables, to the United States, where it travels via Salem, Massachusetts and Providence, Rhode Island to a prairie dog hole in Milwaukee, Wisconsin.

H. P. Lovecraft

"A Reminiscence of Dr. Samuel Johnson" is a short story written in 1917 by American horror fiction writer H. P. Lovecraft. It was first published in the September 1917 issue of the United Amateur, under the pseudonym Humphrey Littlewit, Esq. The story is a spoof of Lovecraft's antiquarian affectations. Littlewit, the narrator, is born August 20, 1690—200 years to the day before Lovecraft's birthdate—making him nearly 228 years old as he writes a memoir. Critic Daniel Harms writes, "While not one of the most inspired of his pieces, it at least shows that HPL realized his pretensions of being an older, cultured gentleman of an earlier era, and could make fun of himself."

The Complete Fiction of H. P. Lovecraft

In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, ant biology, behavioral economics, artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.

The Complete Fiction of H.P. Lovecraft

H.P. Lovecraft

This is the most complete collection of American author of horror, fantasy, and science fiction. Stephen King has called Lovecraft "the twentieth Century's greatest practitioner of the classic horror tale." His works were deeply pessimistic and cynical, challenging the values of the Enlightenment, Romanticism, and Christian humanism. Lovecraft's major inspiration and invention was cosmic horror. Lovecraft has developed a cult following for his Cthulhu Mythos as well as the Necronomicon, a fictional grimoire of magical rites and forbidden lore. The History of the Necronomicon. "Original title Al Azif-azif being the word used by Arabs to designate that nocturnal sound (made by insects) suppos'd to be the howling of daemons..."

H. P. Lovecraft

Ghouls, ghosts, and macabre terrors stalk the night in this spine-tingling collection. With tales describing unnatural frights and haunting visions of cosmic terror, you will be taken on a journey into the disturbing imaginations of some of horror's greatest writers. The stories' heroes face incredible creatures, unknowable gods, and supernatural beings who have no regard for human life. Horror literature has its roots in the mists of time. In the 19th century, writers delved into ancient folk tales and local legends to inspire an entire genre. In the 20th century, the next generation of writers brought to life a brand

new array of terrifying monsters. The authors in this volume range from Victorian pioneers, such as Bram Stoker and Edgar Allan Poe, to the pulp writers of the 20th century, such as William Hope Hodgson and H. P. Lovecraft. The tradition of horror writing that developed took very different turns on either side of the Atlantic - while American authors turned to unknowable horrors and cosmic terrors, British writers such as E. F. Benson and M. R. James mastered a more familiar form, the classic ghost story. It was not only English-speakers who sought to terrify their readers. The French writer Guy de Maupassant, a prolific short story writer and pupil of the acclaimed novelist Gustave Flaubert, found ways to make his protagonists doubt their own sanity as they faced terrors that would drive any ordinary man mad. This collection of bone-chilling tales comes from the pens of some of horror's most acclaimed writers. Authors include: E. F. Benson Ambrose Bierce Francis Marion Crawford W. W. Jacobs M. R. James William Hope Hodgson H. P. Lovecraft Guy de Maupassant Edgar Allan Poe Bram Stoker

Anyone familiar with H. P. Lovecraft's work knows of the Necronomicon, the black magic grimoire he invented as a literary prop in his classic horror stories. There have been several attempts at creating this text, yet none stand up to Lovecraft's own descriptions of the Necronomicon until now. Fans of Lovecraftian magic and occult fiction will delight in Donald Tyson's Necronomicon, based purely within Lovecraft's own fictional universe, the Cthulhu Mythos. This grimoire traces the wanderings of Abdul Alhazred, a necromancer of Yemen, on his search for arcane wisdom and magic. Alhazred's magical adventures lead him to the Arabian desert, the lost city of Irem, ruins of Babylon, lands of the Old Ones, and Damascus, where he encounters a variety of strange creatures and accrues necromantic secrets.
