BONUS MATERIAL! Now includes excerpts from C. S. E. Cooney's new short novel The Twice-Drowned Saint from the anthology A Sinister Quartet! Winner of the 2016 World Fantasy Award for Best Collection Contains "The Bone Swans of Amandale," 2015 Nebula Award finalist for Best Novella "C. S. E. Cooney is one of the most moving, daring, and plainly beautiful voices to come out of recent fantasy. She's a powerhouse with a wink in her eye and a song in each pocket."

—Catherynne M. Valente, New York Times-bestselling author of the Fairyland novels "These stories are a pure joy. C. S. E. Cooney's imagination is wild and varied, her stories bawdy, horrific, comic, and moving-frequently all at the same time. Her characters are wickedly appealing, and her language—O! her language. Lush, playful, poetic, but never obscure or stilted, it makes her magic more magic, her comedy more comic, and her tragic moments almost unbearable." —Delia Sherman, author of *Young Woman in a Garden: Stories* "Bone Swans is a joy of feathery bones & ghoulish clowns. I adored every word. Like an eyas cries for meat, I cry for more. C.S.E. Cooney's a major talent and these are major talent stories. Who can resist hero rats, pouting swans, feral children, flying carpets and the Flabberghast? So tongue-tied am I with delight I fall back on the usual cliches: gripping, delightful, insightful, rollicking & lyrical—and yet not one cliché is to be found in Bone Swans, only stories of surpassing delicacy and wit, told by a lady of rare talent. Please, ma'am, might I have some more?" —Ysabeau S. Wilce, Andre Norton Award winning author of *Flora's Dare* A swan princess hunted for her bones, a broken musician and his silver pipe, and a rat named Maurice bring justice to a town under fell enchantment. A gang of courageous kids confronts both a plague-destroyed world and an afterlife infested with clowns but robbed of laughter. In an island city, the murder of a child unites two lovers, but vengeance will part them. Only human sacrifice will save a city trapped in ice and darkness. Gold spun out of straw has a price, but not the one you expect. World Fantasy Award winner Ellen Kushner has called Cooney's writing "stunningly delicious! Cruel, beautiful and irresistible." Bone Swans, the infernally whimsical debut collection from C. S. E. Cooney, gathers five novellas that in the words of Andre Norton Award winner Delia Sherman are "bawdy, horrific, comic, and moving-frequently all at the same time." Cooney's mentor, Science Fiction and Fantasy Writers of America Grand Master Gene Wolfe, proclaims in his introduction that her style is so original it can only be described as "pure Cooney," and he offers readers a challenge: "Try to define that when you've finished the stories in this book." More praise for Bone Swans "Cooney's brilliantly executed collection of five stories is a delicious stew of science fiction, horror, and fantasy, marked by unforgettable characters who plumb the depths of pathos and triumph. All of these stories could easily serve as the foundation for novels while also working beautifully at their current length. These well-crafted narratives defiantly refuse to fade from memory long after the last word has been read." —Publishers Weekly, starred review "In five beautifully crafted stories, Cooney builds imaginary worlds full of flying carpets, fairy-tale characters, and children confronted with a postapocalyptic Earth Each tale packs in enough plot for a novel, with adventurous characters who brim with wit." —Library Journal, starred review "Writing without ostentation and featuring characters who may be flippant, terse, or even tongue-tied, Cooney produces memorable prose propelled by extraordinary ideas Faced with such twisted genius, I'll say no more!" —Locus "A fascinating mashup between the tropes and resonances of the mythic tale with the sensibilities of contemporary action-oriented fantasy: simultaneously lighthearted and serious, full of consequences but also ubiquitous happy endings." —Tor.com

Year of the Unicorn

Stephen King's apocalyptic vision of a world blasted by plague and tangled in an elemental struggle between good and evil remains as riveting—eerily plausible—as when it was first published. The Infernal City: An Elder Scrolls Novel

Written after his wife's tragic death as a way of surviving the "mad midnight moment," *A Grief Observed* is C.S. Lewis's honest reflection on the fundamental issues of life, death, and faith in the midst of loss. This work contains his concise, genuine reflections on that period: "Nothing will shake a man -- or at any rate a man like me -- out of his merely verbal thinking and his merely notional beliefs. He has to be knocked silly before he comes to his senses. Only torture will bring out the truth. Only under torture does he discover it himself." This is a beautiful and unflinchingly honest record of how even a stalwart believer can lose all sense of meaning in the universe, and how he can gradually regain his bearings.

This early work by William Wymark Jacobs was originally published in 1902 and we are now republishing it with a brand new introductory biography. Jacobs worked as a clerk in the civil service before turning to writing in his late twenties, publishing his first short story in 1895. Most of Jacobs' work appeared before the onset of World War I, and although the majority of his output was humorous in tone, he is best-remembered now for his macabre tales, particularly those contained in his 1902 collection *The Lady of the Barge*, such as 'The Monkey's Paw' and 'The Toll House'.

Moon's Artifice

In Italian police inspector Aurelio Zen, Michael Dibdin has given the mystery one of its most complex and compelling protagonists: a man wearily trying to enforce the law in a society where the law is constantly being bent. In this, the first novel he appears in, Zen himself has been assigned to do some law bending. Officials in a high government ministry want him to finger someone--anyone--for the murder of an eccentric billionaire, whose corrupt dealings enriched some of the most exalted figures in Italian politics. But Oscar Burolo's murder would seem to be not just unsolvable but impossible. The magnate was killed on a heavily fortified Sardinian estate, where every room was monitored by video cameras. Those cameras captured Burolo's grisly death, but not the face of his killer. And that same killer, elusive, implacable, and deranged, may now be stalking Zen. Inexorable in its suspense, superbly atmospheric, Vendetta is further proof of Dibdin's mastery of the crime novel.

Fireborne

“The first noteworthy treatment of its subject—and a definitive one at that Fascinating narrative threads proliferate” (The New York Times Book Review). The most authoritative biography—featuring dozens of rarely seen photographs—of film legend Bruce Lee, who made martial arts a global phenomenon, bridged the divide between Eastern and Western cultures, and smashed long-held stereotypes of Asians and Asian-Americans. Forty-five years after Bruce Lee’s sudden death at age thirty-two, journalist and bestselling author Matthew Polly has written the definitive account of Lee’s life. It’s also one of the only accounts; incredibly, there has never been an authoritative biography of Lee. Following a decade of research that included conducting more than one hundred interviews with Lee’s family, friends, business associates, and even the actress in whose bed Lee died, Polly has constructed a complex, humane portrait of the icon. Polly explores Lee’s early years as a child star in Hong Kong cinema; his actor father’s struggles with opium addiction and how that turned Bruce into a troublemaking teenager who was kicked out of high school and eventually sent to America to shape up; his beginnings as a martial arts teacher, eventually becoming personal instructor to movie stars like James Coburn and Steve McQueen; his struggles as an Asian-American actor in Hollywood and frustration seeing role after role he auditioned for go to a white actors in eye makeup; his eventual triumph as a leading man; his challenges juggling a sky-rocketing career with his duties as a father and husband; and his shocking end that to this day is still shrouded in mystery. Polly breaks down the myths surrounding Bruce Lee and argues that, contrary to popular belief, he was an ambitious actor who was obsessed with the martial arts—not a kung-fu guru who just so happened to make a couple of movies. This is an honest, revealing look at an impressive yet imperfect man whose personal story was even more entertaining and inspiring than any fictional role he played onscreen.

Bridge of Birds

Through Soft Air

The cadaver industry in Britain and the United States, its processes and profits Except for organ transplantation little is known about the variety of stuff extracted from corpses and repurposed for medicine. A single body might be disassembled to provide hundreds of products for the millions of medical treatments performed each year. Cadaver skin can be used in wound dressings, corneas used to restore sight. Parts may even be used for aesthetic enhancement, such as liquefied skin injections to smooth wrinkles. This book is a history of the nameless corpses from which cadaver stuff is extracted and the entities involved in removing, processing, and distributing it. Pfeffer goes behind the mortuary door to reveal the technical, imaginative, and sometimes underhanded practices that have facilitated the global industry of transforming human fragments into branded convenience products. The dead have no need of cash, but money changes hands at every link of the supply chain. This book refocuses attention away from individual altruism and onto professional and corporate ethics.
