This book explores the unprecedented challenge of involuntary singleness for women, and the implications of disregarding this challenge for the Christian (and particularly, baptistic) communities of faith. It argues that these communities not only fail involuntarily single women, but also in so doing, suffer a serious detriment to their own communal health and Christian witness. Taking the challenge of involuntary singleness as a test case, this book explores the method of convictional theology and argues for a holistic framework that can draw together the personal, communal, and visionary spheres of human existence. Although primarily a work of theological ethics, it also draws from a number of different disciplines, including cultural studies and sociology as well as intersections of science and theology.

#1 New York Times Bestseller Legendary venture capitalist John Doerr reveals how

the goal-setting system of Objectives and Key Results (OKRs) has helped tech giants from Intel to Google achieve explosive growth—and how it can help any organization thrive. In the fall of 1999, John Doerr met with the founders of a start-up whom he'd just given \$12.5 million, the biggest investment of his career. Larry Page and Sergey Brin had amazing technology, entrepreneurial energy, and sky-high ambitions, but no real business plan. For Google to change the world (or even to survive), Page and Brin had to learn how to make tough choices on priorities while keeping their team on track. They'd have to know when to pull the plug on losing propositions, to fail fast. And they needed timely, relevant data to track their progress—to measure what mattered. Doerr taught them about a proven approach to operating excellence: Objectives and Key Results. He had first discovered OKRs in the 1970s as an engineer at Intel, where the legendary Andy Grove ("the greatest manager of his or any era") drove the best-run company Doerr had ever seen. Later, as a venture capitalist, Doerr shared Grove's brainchild with more than fifty companies. Wherever the process was faithfully practiced, it worked. In this goal-setting system, objectives define what we seek to achieve; key results are how those top-priority goals will be attained with specific, measurable actions within a set time frame. Everyone's goals, from entry level to CEO, are transparent to the entire organization. The benefits are profound. OKRs surface an organization's most important work. They focus effort and foster coordination. They keep employees on track. They link objectives across silos to unify and strengthen the entire company. Along the way, OKRs enhance workplace

satisfaction and boost retention. In *Measure What Matters*, Doerr shares a broad range of first-person, behind-the-scenes case studies, with narrators including Bono and Bill Gates, to demonstrate the focus, agility, and explosive growth that OKRs have spurred at so many great organizations. This book will help a new generation of leaders capture the same magic.

The thesis of this book is that virtue ethics is key to understanding Trinitarian progressive sanctification. The thesis is supported by four reasons why virtue ethics is key to understanding Trinitarian progressive sanctification: (1) the Trinity, virtue ethics, and sanctification are historically and conceptually interconnected in the tradition and Scripture, (2) virtue ethics based on metaphysical realism is the most biblically consistent ethical framework for Trinitarian progressive sanctification, (3) Jesus' active roles as a teacher and example of virtue play an important part in Trinitarian sanctification, and (4) Jesus' priestly heavenly intercession aimed at manifesting virtue in believers is crucial to understanding how the Trinity progressively sanctifies believers. The active roles of Jesus in sanctification, ordered by the Triune premise, indicate that the Trinity sanctifies such that: (1) the value having its source from the Father, is revealed through the teaching of the Son to motivate believers, who are empowered to be motivated by the Spirit, (2) the character that is from the Father is revealed through the Son's

example that is to be imitated by the believer through habituation and reciprocity, by the Spirit's leading, and (3) believers are led by the Spirit's intercession into prayer (Rom 8:14-16, 26-27), to be helped through the Son's priestly intercession, in order to receive an answer from the Father, with the aim of manifesting the virtues of endurance and hope in the lives of believers.

What if the path toward an extraordinary life is becoming more ordinary? Ordinary is not a call to be more radical. If anything, it is a call to the contrary. The kingdom of God isn't coming with light shows, and shock and awe, but with lowly acts of service. Tony Merida wants to push back against sensationalism and "rock star Christianity," and help people understand that they can make a powerful impact by practicing ordinary Christianity. Through things such as humble acts of service, neighbor love, and hospitality, Christians can shake the foundations of the culture. In order to see things happen that have never happened before, Christians must do what Christians have always done. Christians need to become more ordinary. Let's think together about how we, ordinary people, doing ordinary things, might turn the world upside down.

### **Correctly Handling the Word of Truth**

First published in 1971, this text is a practical gestalt work. It shows how to explore, expand and deepen awareness, and consists of experiments that help discover more about the self, either alone or with others, in pairs or in groups.

### **A Virtue Ethical View of Trinitarian Sanctification**

A masterpiece of Biblical scope, and the magnum opus of one of America's most enduring authors, in a commemorative hardcover edition In his journal, Nobel Prize winner John Steinbeck called *East of Eden* "the first book," and indeed it has the primordial power and simplicity of myth. Set in the rich farmland of California's Salinas Valley, this sprawling and often brutal novel follows the intertwined destinies of two families—the Trasks and the Hamiltons—whose generations helplessly reenact the fall of Adam and Eve and the poisonous rivalry of Cain and Abel. The masterpiece of Steinbeck's later years, *East of Eden* is a work in which Steinbeck created his most mesmerizing characters and explored his most enduring themes: the mystery of identity, the inexplicability of love, and the

murderous consequences of love's absence. Adapted for the 1955 film directed by Elia Kazan introducing James Dean, and read by thousands as the book that brought Oprah's Book Club back, *East of Eden* has remained vitally present in American culture for over half a century.

### **Godly Discontentment**

In an age when the works of “New Atheists” such as Christopher Hitchens and Richard Dawkins fill bookstores and top best-seller lists, the topic of Christian apologetics has never been more timely. Yet the thought of defending the faith against the attacks of unbelievers is daunting to many Christians. Following in the footsteps of groundbreaking apologist Cornelius Van Til, Scott Oliphint has written an accessible introduction to Reformed apologetics, explaining the biblical and theological principles behind a distinctly “covenantal” approach and offering practical guidance for interacting with and persuading those who don't believe. Written for leaders and laypeople alike, this book will encourage and equip Christians to boldly proclaim the gospel and answer the challenges of skeptics in an increasingly skeptical world.

## **Hello? Is Anyone There?**

As the world hurtles towards urbanization at an ever-increasing pace, there arises the need for further theological reflection on the city. Globalization, international immigration, and densification in cities are having a transformative impact on the urban landscape. Urban mission is at the forefront of many denominations, church planting networks, ministries, and mission organizations yearning for citywide transformation. How are we to think biblically and theologically about the city? View from the Urban Loft will take readers through the development of cities throughout history, act as a guide to navigating the current forces shaping urban environments, and seek to uncover a theology of the city that gives Christians a rationale and a biblical understanding of the meaning and purposes of the city and then how to live in it for the glory of God.

### **The classified Bible, an analysis of the sacred Scriptures, ed. by J. Eadie**

According to the Bible, the God of Christianity has a reputation for answering

prayer. However, many Christians have been sometimes severely tempted to think they have been sold short as they have found themselves in some crisis and have cried out to God in all sincerity, and found that he has been "out." From years of pastoral experience in addressing crises, and after having to face crises in his own experience, Roger Abbott attempts to help Christians who are struggling with what seem to be very real instances of God not answering their heartfelt prayers. There are many books about prayer, but there are not many that attempt to face the huge struggles with prayer that pray-ers can face. This book, while refusing to shirk those struggles and the debilitating emotional impact they can have, also attempts to navigate those emotional struggles with the use of a practical theology. Some Christians think, other Christians pray. Hello? Is Anyone There? combines a passion for thoughtful theology and a passion for prayer, out of a passion for a relationship with God in Christ.

Ministry Makeover examines the decline within the church, especially the United Methodist Church (UMC), and some causes for this decline. It calls for a reforming of United Methodist structure and polity by drawing more attention to the value of the bi-vocational model of ministry and a re-visitation of the Wesleyan/United Brethren view and historical perspective. This book establishes a solid theological foundation upon which to build this shift and it goes a step beyond typical

ecclesiology (the study of the church) to identify Trinitarian theology as the basis for the practice of the church. In turn, this text reveals bi-vocational ministry and support of new congregations as not only a viable option, but also arguably the model towards which the church is heading. These insights will transform the church and lead to more effective church ministry with respect to resources, structure, and reach in a post-Christendom world context. Picardo uses Embrace Church (Lexington, KY) as a case study, and incorporates his experiences into this text in order to show how these implications have played out in a true bi-vocational, church-plant context.

### **Awareness**

But when it is the Lord who has something against the church, it is not a laughing matter, its time to tremble. However, as long as the love is more important than the disappointment, you can work out just about any problem between you. It is only when disappointment seems more important than love that relationship problems become toxic.

Having followed Mexico's cartels for years, border security expert Sylvia Longmire takes us deep into the heart of their world to witness a dangerous underground that will do whatever it takes to deliver drugs to a willing audience of American consumers. The cartels have grown increasingly bold in recent years, building submarines to move up the coast of Central America and digging elaborate tunnels that both move drugs north and carry cash and U.S. high-powered assault weapons back to fuel the drug war. Channeling her long experience working on border issues, Longmire brings to life the very real threat of Mexican cartels operating not just along the southwest border, but deep inside every corner of the United States. She also offers real solutions to the critical problems facing Mexico and the United States, including programs to deter youth in Mexico from joining the cartels and changing drug laws on both sides of the border.

Although many people today reject Christianity for intellectual reasons, greater

numbers of people are rejecting Christianity because it does not engage their imagination. Christians must not only demonstrate that the Christian worldview is true, but that it is also good, beautiful, and relevant. The Good News of the Return of the King: The Gospel in Middle-earth is a book that endeavors to show the truth, goodness, and beauty of Jesus Christ, the gospel, and the biblical metanarrative by engaging the imagination through J. R. R. Tolkien's The Lord of the Rings, as well as The Hobbit and The Silmarillion. In this book, I propose that J. R. R. Tolkien's The Lord of the Rings is a story about what Jesus' parables are about: the good news about the return of the king. As a work of imaginative fiction similar to Jesus' parables, The Lord of the Rings can bypass both intellectual and imaginative objections to the gospel and pull back the "veil of familiarity" that obscures the gospel for many.

### **Stealing from God**

Beethoven scholar and classical radio host John Suchet has had a lifelong, ardent interest in the man and his music. Here, in his first full-length biography, Suchet illuminates the composer's difficult childhood, his struggle to maintain friendships and romances, his ungovernable temper, his obsessive efforts to control his nephew's life, and the excruciating decline of his hearing. This absorbing narrative provides a comprehensive account of a momentous life, as it takes the reader on a journey from the composer's birth in Bonn to his death in Vienna. Chronicling the

landmark events in Beethoven's career—from his competitive encounters with Mozart to the circumstances surrounding the creation of the well-known Für Elise and Moonlight Sonata—this book enhances understanding of the composer's character, inspiring a deeper appreciation for his work. Beethoven scholarship is constantly evolving, and Suchet draws on the latest research, using rare source material (some of which has never before been published in English) to paint a complete and vivid portrait of the legendary prodigy.

## **Covenantal Apologetics**

Do you consume God's blessings, or do you share them? Most Christians are consumers. We are obsessed with knowing the right theology and following the right set of rules in hopes that God will bless us. Yet, no matter how much God blesses us, we are still looking for more. James says our faith is dead. But there is another type of Christian, one who craves being put to work as the servant of God to share God's blessings with others. Their faith spurs them on to become the hands and feet of Christ. James says their faith is alive. James in the Suburbs is far more than your ordinary Bible study guide. It is also a parable--an energizing story

of the lives of six men and women--that wraps itself around the Epistle of James, making its teachings immediately applicable to modern life. You will walk away with not only a thorough understanding of the epistle, but also the unforgettable story of people just like you, whose lives the Holy Spirit turned upside down. This book can be read casually by an individual or studied within a group. The final chapter provides everything readers need for a guided twelve-week study.

If you think atheists have reason, evidence, and science on their side, think again! Award-winning author Dr. Frank Turek (I Don't Have Enough Faith to be an Atheist) will show you how atheists steal reason, evidence, science, and other arguments from God in trying to make their case for atheism. If that sounds contradictory, it's because it is! Atheists can't make their case without appealing to realities only theism can explain. In an engaging and memorable way, *Stealing from God* exposes these intellectual crimes atheists are committing and then provides four powerful reasons for why Christianity is true.

When we read the Bible as a parable, as a series of object lessons told merely to prove a point, we miss something. When we treat the people within the Bible as mere "characters" in a story, we lose something incredibly important. Object lessons are clean and simple. People, on the other hand, are messy and complicated. When we look at the life of Simon Peter, we see one of the messiest people in the entire New Testament. Peter walked on water and sank into the waves. He proclaimed who Jesus was and completely missed the point. He pledged his undying devotion to Christ, and even drew a sword in defense of his Lord, and then he abandoned Jesus and denied him three times. Peter is also the rock on which Christ would build his church--the same church of which Paul says we are a part. So come. Walk with Peter. Fish with him. Follow a strange rabbi, though it might cost you everything. Walk on water, though you might sink. Go to Jerusalem, though death awaits you. Stand with Peter as God uses him to build his church, and watch that church grow.

How should the Word of God be interpreted and applied today? Does our modern

culture affect how we read the Bible? Can certain passages be interpreted in different contexts and in different ways, all the while acknowledging that God speaks with a clear and consistent voice? These are the enduring challenges of hermeneutics. In this volume, no less than sixteen Reformed scholars from four different countries join together to tackle the hard questions that often arise when we busy ourselves with the weighty responsibility of interpreting Holy Scripture. As iron sharpens iron, so also these Reformed scholars challenge each other and their readers to ask not only how hermeneutics can be done, but ultimately, how it should be done so that God's Word of Truth may be handled correctly (2 Tim 2:15).

“A fascinating blend of culinary history and the science of taste” (Publishers Weekly, starred review), from the first bite taken by our ancestors to ongoing scientific advances in taste and today’s “foodie” revolution. Can’t resist the creamy smoothness of butter? Blame Darwinian natural selection. Crave the immediate zing of sweets? They bathe your brain in a seductive high. Enjoy the savory flavors

of grilled meat? So did your ancestor Homo erectus. Coffee? You had to overcome your hardwired aversion to its hint of bitterness and learn to like it. Taste is a whole-body experience, and breakthroughs in genetics and microbiology are casting light not only on the experience of french fries and foie gras, but on the mysterious interplay of body, brain, and mind. Reporting from kitchens, supermarkets, farms, restaurants, huge food corporations, and science labs, Pulitzer Prize-winning journalist John McQuaid tells the story of the still-emerging concept of flavor and how our sense of taste will evolve in the coming decades. Tasty explains why children have bizarre and stubborn tastes, how the invention of cooking changed our brains and physiology, why artificial sweeteners never taste quite right, why name brands really do taste better, how a 100,000-year-old walkabout by early humans is responsible for George H.W. Bush's broccoli-hatred, why "supertasters" like salt, and why "nontasters" are more likely to be alcoholics. "A fascinating story with a beginning some half a billion years ago...McQuaid's tale is about science, but also about culture, history and, one senses, our future" (Scientific American). Tasty offers a delicious smorgasbord of where taste originated and where it's going—and why it changes by the day.

In *Equal*, Church and ministry leader Katia Adams argues that the church has too often misrepresented the heart of Jesus to release and empower women and men. With sensitivity to both sides of the argument, Adams draws on the wisdom of Scripture, theology, and the Holy Spirit. Blending them with her own personal experiences, she asserts that both women and men are equally called to serve and lead in the church and in the world—and that, by restricting the roles of women, we are missing God’s design for the church and for the gospel’s impact on the earth.
