USA TODAY bestselling author Julia London, "a gifted and versatile author" (Publishers Weekly), introduces a sexy, wildly

romantic and emotionally charged new trilogy in which three aristocratic young ladies, upon discovering they are destitute, resort to desperate means to keep up appearances and find the husbands of their dreams. When the young ladies of the Fairchild family learn that their stepfather has absconded with their late mother's fortune, Ava, the eldest, hunts down the notoriously wealthy rakehell Jared Broderick, the Marquis of Middleton and heir to a dukedom. Much to her shock and delight, the marquis sweeps her into a whirlwind romance and proposes marriage. But after their passionate wedding night, Ava discovers Jared has ulterior motives of his own. Not only does he expect her to deliver an heir while he continues to enjoy a rogue's life, but Ava also suspects she is a pawn in her husband's quest for revenge. Marriages of convenience work for some, but for Ava a loveless bond won't do. So she devises a bold plan to confront her husband's demons so that he might be free to choose to give her his heart for the right reason: because she is the only woman he will ever truly desire.

The development of modern medicine is on a very steep trajectory upward--a rise that began only about a hundred years ago. This rise is certainly quantitative, but it is accompanied by qualitative changes in the way we understand and deliver healthcare. This book begins with a look at three recognized periods of medical development--from 1900 until World War II, from the war until about 1980, and the period since 1980. While the common response is to celebrate these developments, this book suggests that perhaps we should also be wary, especially of the qualitative changes. Since World War II, these medical developments have entered more and more areas of our lives. It is precisely this process of medicalization that should be critically examined. Since 1980 we have medicalized life itself. Drawing from medical sociology, the book examines four characteristics of contemporary Western health care: health as a system, risk as a means of understanding health, health as a commodity, and individual responsibility for health. Critical examination of these four tendencies in contemporary health care forms the core of the argument of this important book about the essence of biohealth and medical practice.

Do you consider yourself a hunter? If you have you ever dated, played sports, or held a job, then your answer should be yes. We are always hunting—trying to track down and take the things we want, the things that will make our life bigger, better, safer; more satisfying, exciting, and just plain fun. In *The Hunt*, serial entrepreneur, hunter, and OutdoorHub founder David Farbman offers a way of thinking about work, life, and our connection with the world based upon the ancient discipline of hunting. *The Hunt* will inspire anyone striving for more to think like hunters—with poise, concentration, and skill; to identify their targets; and, with focus, determination, and satisfaction, to achieve those goals. Specifically, *The Hunt* shows how to: Get a bigger, clearer picture of your life and goals, and discover things about yourself and your ability that you've never noticed or seen before Gain the hunter's special skills at observation and perception, to understand your environment; Learn "predatory consciousness" - the full understanding of your prey, whether business partners or competitors, so you can predict their actions; Harness and leverage every opportunity to obtain your desired outcomes and inspire your best thinking Fully understand where to pick battles, and where not to "hunt" at all. The principles of *The Hunt* will give you a clearer, sharper lens for seeing the world and shaping your role in it. You'll make better decisions, form stronger alliances, build better strategies, target bigger wins, and uncover more opportunities. Best of all, you will become a true hunter when you know who you are, what you want, and how to get what you're hunting for.
