And to sacrifice her son, Ty, as an offering to their unholy union. When Gabriella narrowly escapes the crazy fan's clutches, she leaps into panicked action. As Ty and Theo battle their own, personal monsters, Gabriella is drawn into a romance with man shrouded in mystery who carries a guilt she can't even begin to imagine. The stalker who hunts Gabriella and her family tracks them down and corners his prey as a full moon rides high in the night sky and lightning explodes on the mountaintop. ## **Dewey's Nine Lives**

An extortion letter arrives at Crystal Waters, one of Chicago's wealthiest gated communities. It makes no specific threats, gives no instructions, demands only that \$50,000 be gotten ready---chump change for an enclave where the cheapest house is worth three million. It's easy to see it as harmless---a note from a nut. Then a mansion explodes. The homeowners panic, and want it hushed up. If word gets out that a bomber is targeting Crystal Waters, their multimillion-dollar homes will become worthless, a last catastrophe for people strung out from living the good life too well. They hire Dek Elstrom to investigate. Dek Elstrom used to soar high, too, when he lived with his multimillionaire wife at Crystal Waters, but that was before the dominos of his life tipped over and his ex-wife threw him out. Now reduced to living in a crumbling stone turret, bankrupt of everything but attitude, he's not even his own ideal choice for the job. He's too broke, however, to question the motives of a gift-horse client. He needs the money---and the chance to reconnect with his ex-wife. Another bomb goes off, and Dek realizes the culprit must be someone who is angry, needs money, and used to live at Crystal Waters. Then he realizes something else. He himself is the prime suspect. A sly and clever caper among the richest of the rich, A Safe Place for Dying is for fans of Carl Hiaasen and Robert Crais.

When down from the moon stepped the goddess of the night, she bid Minerva/Athene come to her. "Minerva/Athene," she said, "you sprang fully formed from the head of your father. Now all the daughters of mankind think they, too, are as rootless as you. Tonight I bid you dance, join the circle round 1 that tree glistening with the clarity of wisdom. Mother Natura and Lady Philosophia, hands together, already have begun the promenade of myth and allegory. " Still in the

garb of gold and white stone, Minerva/ Athene did as she was bid and danced till dawn. Then in new light, she found herself suddenly a budding flower on a tall branch, and even more swiftly a crystalline fruit, rivaling the morning sun, refracting the light. Behold, she had grown roots, difficult to discover down in the dark of history, deep in the solid knowledge of earth. And the daughters of humankind saw and reveled in their roots. This is the story of this book, a history, long and diverse, of women thinkers and their thought. It will become a legacy for all who study it, a legacy that Heloi"se, Marie de Gournay, Sor Juana Ines de la Cruz, and Judith Sargent Murray among many women philosophers assured by composing lists of the names of women little acknowledged century after century. Charlotte Taylor lived in the front row of history. In 1775, at the young age of twenty, she fled her English country house and boarded a ship to Jamaica with her lover, the family's black butler. Soon after reaching shore, Charlotte's lover died of yellow fever, leaving her alone and pregnant in Jamaica. In the sixty-six years that followed, she would find refuge with the Mi'kmaq of what is present-day New Brunswick, have three husbands, nine more children and a lifelong relationship with an aboriginal man. Using a seamless blend of fact and fiction, Charlotte Taylor's great-great-great-granddaughter, Sally Armstrong, reclaims the life of a dauntless and unusual woman and delivers living history with all the drama and sweep of a novel. Excerpt from from The Nine Lives of Charlotte Taylor: "Every summer of my youth, we would travel from the family cottage at Youghall Beach to visit my mother's extended clan in Tabusintac near the Miramichi River. And at every gathering, just as much as there would be chickens to chase and newly cut hay to leap in, so there would be an ample serving of stories about Charlotte Taylor. . . She was a woman with a "past." The potboilers about her ran like serials from summer to summer, at weddings and funerals and whenever the clan came together. She wasn't exactly presented as a gentlewoman, although it was said that she came from an aristocratic family in England. Nor was there much that seemed genteel about the person they always referred to as "old Charlotte." Words like "lover" and "land grabber" drifted down from the supper table to where we kids sat on the floor. There were whoops of laughter at her indiscretions, followed by sideways glances at us. But for all the stories passed around, it was clear the family still had a powerful respect for a woman long dead. We owed our very existence to her, and the anecdotes the older generation told suggested that their own fortitude and guile were family traits passed down from the ancestral matriarch. For as long as I can remember, I've tried to imagine the real life Charlotte Taylor lived and, more, how she ever survived." From the Trade Paperback edition.

Civics education is "on the books" in all 50 states, yet civic illiteracy is widespread. Only one third of 12th graders are able to explain the significance of the Declaration of Independence, and fewer than half of 8th graders know the purpose of the Bill of Rights. This instructional guide explores the foundations of civics education--and the reasons for its demise--with commentary from civics education leaders and scholars across the nation. Questions for eliciting civics discussion are provided for all grade levels, along with detailed civic action and service projects and reading plans. Best practices and grant writing options are included. The author argues for a return to early 20th century civics education and details the traditional and present-day role of America's libraries in developing a civic-minded populace. School and public librarians are urged to utilize trade books and carefully evaluated websites to integrate civics within educational and youth services offerings.

Miguel Antonio Otero (1859-1944) not only distinguished himself as a political leader in New Mexico and lived out his life as a champion of the people, but he is also highly recognized for his career as an author. He published his legendary "My Life on the Frontier, 1864-1882," in 1935, followed by "The Real Billy the Kid: With New Light on the Lincoln County War" in 1936, "My Life on the Frontier, 1882-1897" in 1939, and "My Nine Years as Governor of the Territory of New Mexico, 1897-1906" in 1940. These books, of which this is one in Sunstone's Southwest Heritage Series, are filled with the raw power and intrigue of the Wild West written by one who lived it. One would expect no less from such a vibrant personality who filled the pages of his monumental history with the passionate memories of an exciting era. Otero was born in St. Louis, Missouri. His father, who bore the same name, and who was born in Valencia, New Mexico in 1829, had built up a stellar career in the East. Miguel Antonio Otero, Jr. was brought up in a family of wealth and influence, but he also experienced the hardships of growing up in a household that was always on the move. His family's sojourns took him from one town to another across Missouri, Kansas, Colorado, and New Mexico. During Miguel A. Otero's travels and frequent stopovers in Wild Western towns he came into contact with notorious outlaws like Clay Allison and popular lawmen such as Wild Bill Hickok, Pat Garrett, Elfego Baca, and other well known figures including Doc Holliday, William F. Cody ("Buffalo Bill"), General George A. Custer, and frontiersman Christopher "Kit" Carson. In fact, Otero was such an adventurous soul that he always sought out, or was in close contact with, anyone making headlines during the turbulent era he lived in. He even published a short lived newspaper called the "Otero Optic," which eventually became the "Las Vegas Daily Optic." He began his illustrious career in politics as Las Vegas City Clerk, San Miguel County probate clerk, county clerk, and recorder, and district court clerk. Then in 1892 President William McKinley appointed Miguel Antonio Otero as governor of the New Mexico territory where he served until 1906.

How free is the Northern Irish writer to produce even a short poem when every word will be scrutinised for its political subtext? Is the visual artist compelled to react to the latest atrocity? Must the creative artist be aware of his or her own inculcated prejudices and political affiliations, and must these be revealed overtly in the artwork? Because of these and other related questions, the recent work by Northern Irish writers and visual artists has been characterised by an inward-looking self-consciousness. It is an art that relays its personal responses in guarded, often coded ways. Characterised by obliquity and self-reflexivity, the art does not simply re-present events and the artist's emotive response towards them; rather, it calls attention to the manner of its presentation. It is an art about art, and its role and place in society. *Governing the Tongue* examines how the creation of art in a time of violence brings about an anxiety in the Northern Irish artist regarding his or her artistic role, and how it calls into question the ability to represent events. The series of essays is inter-disciplinary in its approach, exploring the place of art – its role and location – in the work of key Northern Irish writers (Ciaran Carson, Seamus Deane, Brian Friel, Seamus Heaney, Michael Longley, Medbh McGuckian, Eoin McNamee, Glenn Patterson) and visual artists (Willie Doherty, Rita Donagh, Paul Seawright, Victor Sloan).
