Ghosts have been the entertaining subject of many works of fiction, but they're even more intriguing (and perhaps even scarier) when they are the focus of real-life hauntings in our own backyard. ## **Haunted New Orleans**

The truth behind the legend of New Orleans' infamous slave owner, madwoman, and murderess, portrayed in the anthology series, American Horror Story. On April 10, 1834, firefighters smashed through a padlocked attic door in the burning Royal Street mansion of Creole society couple Delphine and Louis Lalaurie. In the billowing smoke and flames they made an appalling discovery: the remains of Madame Lalaurie's chained, starved, and mutilated slaves. This house of horrors in the French Quarter spawned a legend that has endured for more than one-hundred-and-fifty years. But what actually happened in the

Lalaurie home? Rumors about her atrocities spread as fast as the fire. But verifiable facts were scarce.

Lalaurie wouldn't answer questions. She disappeared, leaving behind one of the French Quarter's ghastliest crime scenes, and what is considered to be one of America's most haunted houses. In *Mad Madame Lalaurie*, Victoria Cosner Love and Lorelei Shannon "shed light on what is fact and what is purely fiction in a tale that's still told nightly on the streets of New Orleans" (*Deep South Magazine*).

## **Haunted Plantations of the South**

In this book Tiya Miles explores the popular yet troubling phenomenon of "ghost tours," frequently promoted and experienced at plantations, urban manor homes, and cemeteries throughout the South. As a staple of the tours, guides entertain paying customers by routinely relying on stories of enslaved black specters. But who are these ghosts? Examining popular sites and stories from these tours, Miles shows that haunted tales routinely appropriate and skew African American history to produce representations of slavery for commercial gain. "Dark tourism" often highlights the most sensationalist and macabre aspects of slavery, from salacious sexual ties between white masters and black women slaves to the physical abuse and torture of black bodies to the supposedly exotic nature of African spiritual practices. Because the realities of slavery are largely absent from these tours, Miles reveals how they continue to feed problematic "Old South" narratives and erase the hard truths of the Civil War era. In an incisive and engaging work, Miles uses these troubling cases to shine light on how we feel about the Civil War and race, and how the ghosts of the past are still with us.

### **House of Spirits and Whispers**

"Birmingham is probably the most thoroughly segregated city in the United States. Its ugly record of brutality is widely known. Negroes have experienced grossly unjust treatment in the courts. There have been more unsolved bombings in Negro homes and churches in Birmingham than in any other city in the nation." Martin Luther King, Jr. Letter from a Birmingham Jail 1963 Anybody who is familiar with the Civil Rights movement knows that 1964 was a pivotal year. And in Birmingham, Alabama - perhaps the epicenter of racial conflict - the Barons amazingly started their season with an integrated team. Johnny "Blue Moon" Odom, a talented pitcher and Tommie Reynolds, an outfielder - both young black ballplayers with dreams of playing someday in the big leagues, along with Bert Campaneris, a dark-skinned shortstop from Cuba, all found themselves in this simmering cauldron of a minor league town, all playing for Heywood Sullivan, a white former major leaguer who grew up just down the road in Dothan, Alabama.

Colton traces the entire season, writing about the extraordinary relationships among these players with Sullivan, and Colton tells their story by capturing the essence of Birmingham and its citizens during this tumultuous year. (The infamous Bull Connor, for example, when not ordering blacks to be blasted by powerful water hoses, is a fervent follower of the Barons and served as a long-time broadcaster of their games.) By all accounts, the racial jeers and taunts that rained down upon these Birmingham players were much worse than anything that Jackie Robinson ever endured. More than a story about baseball, this is a true accounting of life in a different time and clearly a different place. Seventeen years after Jackie Robinson had broken the color line in the major leagues, Birmingham was exploding in race riots, and now, they were going to have their very first integrated sports team. This is a story that has never been told.

### **Ghostland**

Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the

supernatural. In *Haunting Experiences*, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts.

The story of the Sallie House and the fire-starting ghost girl who haunted it has sparked endless rumors and theories of murder, cover-ups, racism, and abuse. But the Pickmans know the real story because they lived it—and barely made it out alive. Now, for the first time, Tony and Debra reveal untold stories from their ordeal. They describe Sallie's seemingly protective fascination with their baby, and tell what it was like to live with menacing entities that scratched, bit, and terrorized their family. Along with historical research, the Pickmans share personal photographs and journal entries from their time spent living in the nightmare house that still haunts them today.

Louisiana plantations evoke images of grandeur and elegance, but beyond the facade of stately homes are stories of hope and subjugation, tragedy and suffering, shame and perseverance and war and conquest. ### **The Amityville Horror**

Once upon a time, my house was haunted. It still is. I began recording my experiences, hoping to one day share them. I kept waiting for the incidents to stop, so I'd have a logical conclusion to my book. So far, that hasn't happened. It may never happen. I'd like to get my story told before I become a ghost myself. The True Story of a Haunting Beginning in 1968 and spanning four decades, this true story chronicles the hair-raising experiences that nearly drove an ordinary housewife and mother to the breaking point. Not every haunted house is an old Victorian mansion, as the author and her family discovered when they bought a modest house in the suburbs. Even a post-war starter home can be a dwelling place for earthbound spirits—especially if it holds a tragic secret from the past. Eerie feelings of being watched, disembodied sobs, mysterious scratches appearing on her throat, and a child's voice crying, "Mommy!" convinced M. L. Woelm that she was sharing her home with ghosts. This is her story.
