The Year 1000

affairs history has ever known.

A Girl who Would be Queen

“A stand-alone heavy hitter that’s more in line with recent deviants like Chuck Wendig’s upcoming Wanderers (2019) and Daniel H. Wilson’s The Clockwork Dynasty (2017). Tonally, this lush novel is closer to Scott Lynch’s pirate fantasy The Lies of Locke Lamora (2006), but technologically it resembles the near-future dystopias of Cory Doctorow or China Miéville [...] Wildly ambitious and inventive fantasy from an author who’s punching above his weight in terms of worldbuilding—and winning.” -- Kirkus (starred review) *** From the bestselling author of the Sandman Slim series, a lush, dark, stand-alone fantasy built off the insurgent tradition of China Mieville and M. John Harrison—a subversive tale that immerses us in a world where the extremes of bleakness and beauty exist together in dangerous harmony in a city on the edge of civility and chaos. The Great War is over. The city of Lower Proszawa celebrates the peace with a decadence and carefree spirit as intense as the war’s horrifying despair. But this newfound hedonism—drugs and sex and endless parties—distracts from strange realities of everyday life: Intelligent automata taking jobs. Genetically engineered creatures that serve as pets and beasts of war. A theater where gruesome murders happen twice a day. And a new plague that even the ceaseless euphoria can’t mask. Unlike others who live strictly for fun, Largo is an addict with ambitions. A bike messenger who grew up in the slums, he knows the city’s streets and its secrets intimately. His life seems set. He has a beautiful girlfriend, drugs, a chance at a promotion—and maybe, an opportunity for complete transformation: a contact among the elite who will set him on the course to lift himself up out of the streets. But dreams can be a dangerous thing in a city whose mood is turning dark and inward. Others have a vision of life very different from Largo’s, and they will use any methods to secure control. And in behind it all, beyond the frivolity and chaos, the threat of new war always looms.

Smoky the Cowhorse

A Polish family in the Middle Ages guards a great secret treasure and a boy's memory of an earlier trumpeter of Krakow makes it possible for him to save his

father.

The Broken Lands

It is before daybreak in San Francisco on April 18, 1906. Jacob Kaufman slips out of the wooden boarding house where he lives with his immigrant father and little sister Rosie, and suddenly the ground beneath his feet begins to rumble. Buildings collapse, and the street splits wide open as Jacob runs to find safety from a devastating earthquake. Fires engulf the city. He returns home hoping to find his father and sister, but there is nothing left of the building but a pile of sticks. Jacob and his dog join the throng of other people searching for shelter, food, fresh water, and loved ones who are missing. In Gail Langer Karwoski's stirring fictional account of the San Francisco Earthquake of 1906, young readers will relive the drama of the actual event and its devastating aftermath. An Author's Note carefully separates fact from fiction, giving young readers a glimpse into one of the worst earthquakes in modern history.

Call It Courage

For well over thirty years, Eric P. Kelly's Newbery Award winner has brought the color and romance of ancient times to young readers. Today, *The Trumpeter of Krakow* is as absorbing and dramatic as when it was first published in 1928. There was something about the Great Tarnov Crystal that wise men spoke of in hushed tones. Others were ready to kill for it. Now a murderous Tartar chief is bent on possessing it. But young Joseph Charnetski was bound by an ancient oath to protect the jewel at all costs. When Joseph and his family seek refuge in medieval Krakow, they are caught up in the plots and intrigues of alchemists, hypnotists, and a dark messenger of evil. Will Joseph be able to protect the crystal, and the city, from the plundering Tartars?

This composite book contains three wonderful pieces of work by famous writers - Black Beauty by Anna Sewell, Smoky the Cowhorse by Will James and The Pacing Mustang by Ernest Thompson Seton. Love to animals, to horses in particular, unites these stories. The first book became a world bestseller. It was purchased by more than 50 million readers. In Smoky the Cowhorse an old cowboy tells about hard life of a real cowboy horse in the wide expanse of the prairie. In The Pacing Mustang, the wild black Pacing Mustang couldn't be caught by any cowboy. Only a greedy

cook was able to cunningly entrap the fast horse. In the end, even the cook was left behind by the horse's tremendous speed.

When Knights Were Bold

IT must have been a sight well worth seeing when a knight mounted his horse and galloped away from a castle. Of course his armor was polished and shining, and, as Lowell says of Sir Launfal, he "made morn through the darksome gate." The children of the castle especially must have watched him with the greatest interest. The girls looked wistfully at the scarf or glove on his helmet, each one hoping that he who would some day wear her colors would be the bravest man that ever drew a sword. As for the boys, they could hardly wait for the day to come when they, too, could don glittering armor and sally forth into the world in quest of adventures. Even the youngest of these children knew that a boy must pass through long years of training before he could become a knight. This began when he was a small child, perhaps not more than seven years old. It was not the custom for the son of a noble to be brought up in the home of his father. He was sent for his education and training to the castle of some lord of higher rank or greater reputation, sometimes to the court of the king. He was taught to look with the

utmost respect upon the man who trained him to be a knight, to reverence him as a father, and to behave toward him with humility and meekness. Even if the time ever came when they were fighting on opposite sides, the foster son must never harm the man whose castle had been his home. In those days of warfare and bloodshed, the king himself might well be glad to have as devoted supporters and friends a band of young men who had been carefully trained in the practice of arms. It is no wonder that kings and nobles looked upon it as a privilege to receive these boys into their castles. Indeed, when their fathers were inclined to keep them at home, the king sometimes demanded that they be sent to him. The boys of the days of knighthood were not so very different from those of to-day, and many of their amusements were the same as now. They had various games of ball, they played marbles, they see-sawed, and walked on stilts, much as if they belonged to the twentieth century. Of course they played at being knights, just as boys to-day play at being merchants or manufacturers. There is an old picture of some pages, as these boys were called, playing that two toy knights mounted on wooden horses are having a contest. The two horses are pushed toward each other, and if either knight is struck by the spear of the other and thrust out of his place he is vanquished.

Waterless Mountain

From celebrated Yale professor Valerie Hansen, a groundbreaking work of history showing that bold explorations and daring trade missions connected all of the world's great societies for the first time at the end of the first millennium. People often believe that the years immediately prior to AD 1000 were, with just a few exceptions, lacking in any major cultural developments or geopolitical encounters, that the Europeans hadn't yet reached North America, and that the farthest feat of sea travel was the Vikings' invasion of Britain. But how, then, to explain the presence of blonde-haired people in Maya temple murals at Chichén Itzá, Mexico? Could it be possible that the Vikings had found their way to the Americas during the height of the Maya empire? Valerie Hansen, an award-winning historian, argues that the year 1000 was the world's first point of major cultural exchange and exploration. Drawing on nearly thirty years of research, she presents a compelling account of first encounters between disparate societies, which sparked conflict and collaboration eerily reminiscent of our contemporary moment. For readers of Jared Diamond's *Guns, Germs, and Steel* and Yuval Noah Harari's *Sapiens*, *The Year 1000* is an intellectually daring, provocative account that will make you rethink everything you thought you knew about how the modern world came to be. It will also hold up a mirror to the hopes and fears we experience today.

A Couple's Guide to a Growing Marriage

When Young Fu arrives with his mother in bustling 1920s Chungking, all he has seen of the world is the rural farming village where he has grown up. He knows nothing of city life. But the city, with its wonders and dangers, fascinates the 13-year-old boy, and he sets out to make the best of what it has to offer him. First published in 1932, *Young Fu of the Upper Yangtze* was one of the earliest Newbery Medal winners.
