## **30 Days to a More Powerful Vocabulary**

A Bigger Vocabulary = A Brighter Future Words. They're the foundation of nearly everything of value in our world. They have the power to create and the power to destroy. The power to inspire and to terrify. The power to enlighten and also to obscure. And, more specifically for you, they have the power to attract wealth and success and guarantee your brighter future. This is not hyperbole - it is based on rock-solid research. Studies show that those people with large vocabularies are smarter, wealthier, and happier than the average person - and substantially so. And here's the best news of all: a large vocabulary is not tied to your social status, your genes, or even your education level. It is a skill that can be learned - and it takes only 30 days. In this cutting-edge program, 30 Days to a More Powerful Vocabulary, personal development expert and English enthusiast Dan Strutzel will instruct, enlighten, and inspire you with a concentrated 30-day program that will teach you over 500 words. But, more than teaching you these words, the uniquely designed program will

ensure that these words become a habit-knit part of your life - and with minimal effort on your part. Best of all, research shows that learning new words has an exponential effect on the size of your vocabulary - since learning one word naturally produces an association between two to three more words. In short, after reading and applying the system in this 30-day program, you will not only have a bigger vocabulary - you will have a brighter future! Here's just a sampling of what you'll learn: The 10 myths about building a dynamic vocabulary The secret behind the exponential effect of vocabulary building A 30-day program designed to maximize learning and comprehension of over 500 words The words you need to know about money and financial issues The words you need to know about persuading others The words you need to know about marriage, parenting, and other relationships The words you need to know about science The words you need to know to be a great conversationalist Why building a large, dynamic vocabulary is even more valuable in the digital age And much more!

healthy, loving marriage. I would never have believed I could achieve such "unattainable" goals. But, I did! I then asked myself the question, "How was I able to reach these goals even though they had seemed so unattainable?" I discovered there were six principles that I had implemented in each situation. I have created a 40-day journal using these six themes. I believe implementing these principles will help as you strive to improve your life. Each day, this book will offer a devotional meditation, with a space for you to write down your reflections. There will also be places where you can record what you ate and what physical activity you accomplished. At the end of each week, you can review how you did and your progress in accomplishing your goals.

## All Will Be Well

Laid out with an introduction all about unleashing the power within. Self discipline, the book goes into short obtainable steps in a day by day fashion to help you focus, commit and achieve in only 1 month! What is self-discipline? What does it mean to lack it? Why do you think you're not as disciplined as you would like? Is it because you manage your time poorly? You lack organizational skills? You lack motivation? Procrastination is your greatest enemy? You're just too lazy? What many people don't realize is that all of these issues, which they see as causes of poor self-discipline, are actually symptoms. Are you confronting one or more of them? If you're contemplating purchasing the book, then you've decided it's time for a change of significant proportions, a change that might take only 30 days to implement, but that will last you for a lifetime. Your conviction is admirable, but to undergo such a change, you must first understand what self-discipline is and what it is not. Self-discipline is not: A personality trait that some people have and others don't. Using willpower to force yourself into action. On the contrary, self-discipline is: A skill that anyone can learn and train. becoming aware of your conscious or subconscious resistance to action and using different techniques to overcome, but not to crush that resistance. As you go through this life-changing 30 days challenge, remember that what you are doing is exercising your willpower muscle for the long run. Good luck!
