Oxford Word Skills: Basic: Student's Pack (Book and CD-ROM)

Revisit the lost art of writing with these fun prompts, worksheets, exercises—and more!—and experience the many benefits of writing by hand, including increased focus and memory, relaxation, and creative expression. Writing by hand may seem passé in the digital age, but it shouldn't be dismissed as simply an activity for grade schoolers—it offers countless benefits that have been studied by researchers, brain neurologists, therapists, educators, and others who are invested in helping handwriting thrive in an age of advancing technology. Handwriting may be slower than typing—but this gives your brain more time to process information, and stimulates neurological connections that aid in memory, focus, and composition. The process of handwriting can also have a soothing, calming effect and can even serve as a great form of meditation. And of course, it's a great way of expressing your individuality and personal style. The Lost Art of Handwriting explores the history of writing longhand, and reintroduces proper stroke sequences, letter forms, and techniques for evaluating and improving your handwriting. You will discover how the amazing variety of letter forms provide endless opportunities for making these alphabets your own, and how to choose alternatives that fit your preferences while keeping your writing neat, consistent, and unique to you. You'll learn how to connect letters in cursive writing to help you write more smoothly, and with practice, more efficiently. Learn how easy it is to apply what you've learned into your everyday life with tips for integrating

handwriting practice into already jam-packed schedules. Soon, you'll notice a steady increase in the relaxation, value, and joy that handwriting offers to everyone who persists in putting the pen or pencil to paper.

Cursive Handwriting Workbook for Kids

Writing by hand is vital in training the brain to practice and thus improve, more skills and senses all at once: hand-eye coordination, patience, self-control, and a sense of involvement and ownership. All this, while learning more about the English language. In this book, you will find various handwriting exercises designed for children from 5 to 7 years old. Through writing drills using the alphabet, sight words, and sight word sentences and phrases, your child or student will gain thorough practice in learning (and improving) his or her handwriting. What's inside? Part 1 starts off with the alphabet where writing letters in both capital and lowercase forms are practiced through tracing and connecting the dots. Each letter is presented with directional arrows to guide the hand movements of the child as he or she learns to write. We've also added the numbers 1-10 to the first chapter and pictures to color. Part 2 consists of sight words to be traced and copied. Part 3 moves on to practicing sight word sentences and phrases. This book contains over 120 pages of exercises! It's a great handwriting workbook choice for all parents and teachers who hope to begin teaching writing to beginners and engage their kids in stimulating handwriting practice. Language Arts, Grade 4

This workbook, Cursive Handwriting Practice Workbook for Teens, is designed to inspire teens' interest in learning and practicing cursive handwriting. Teens enjoy writing sentences like "Wizard school is so cool," and, "Talk to you later." Exercises like these help to make learning fun, even at home. This unique teenage handwriting workbook provides teens who need to improve their cursive writing fluency a chance to do it with a more age appropriate workbook (since the sentences were prepared with a teenage audience in mind). This workbook focuses on writing phrases and sentences in cursive in three parts: Students practice tracing and copying phrases and sentences in Part 1. Part 2 just involves copying (with no tracing). A challenge is presented in Part 3: The sentences are printed, and students must rewrite them in cursive. This requires students to remember what the cursive letters look like (though they can look at a chart on pages 5-6 if they need a reminder). May your students or teenagers improve their handwriting skills and enjoy reading and writing these phrases and sentences.

Handwriting

Treasure House Handwriting is a whole-school programme designed to support children in developing a clear and fluent style of writing. Using precursive and cursive handwriting styles, the programme progresses from introducing the movements and patterns needed to form letters, through to the development of a personal style. Linked closely to the National Curriculum and Primary National Strategy, this book provides more intense teaching strategies and practice for the first term of formal tuition. Each individual letter shape and movement is taught with a lead-in and a lead-out stroke beginning from the writing line. To provide extra practice in the transition from precursive to cursive letters, an extra section has been included to link the development of a cursive hand to the introduction of spelling patterns.
