As the ability to produce nanomaterials advances, it becomes more important to understand how the energy of the atoms in these materials is affected by their reduced dimensions. Written by an acclaimed author team, Kinetics in Nanoscale Materials is the first book to discuss simple but effective models of the systems and processes that have recently been discovered. The text, for researchers and graduate students, combines the novelty of nanoscale processes and systems with the transparency of mathematical models and generality of basic ideas relating to nanoscience and nanotechnology.

Meet the SOCIETY OF SIRENS—three radical, libertine ladies determined to weaponize their scandalous reputations to fight for justice and the love they deserve... She's a Rakes on a quest for women's rights... Seraphina Arden's passions include equality, amorous affairs, and wild, wine-soaked nights. To raise funds for her cause, she's set to publish explosive memoirs exposing the powerful man who ruined her. Her ideals are her purpose, her friends are her family, and her paramours are forbidden to linger in the morning. He's not looking for a summer lover... Adam Anderson is a wholesome, handsome, widowed Scottish architect, with two young children, a business to protect, and an aversion to scandal. He could never, ever afford to fall for Seraphina. But her indecent proposal—one month, no strings, no future—proves too tempting for a man who strains to keep his passions buried with the losses of his past. But one night changes everything. What began as a fling soon forces them to confront painful secrets—and yearnings they thought they'd never have again. But when Seraphina discovers Adam's future depends on the man she's about to destroy, she must decide what to protect... her desire for justice, or her heart.

It is becoming evident that satisfying the ever-increasing global demand for energy is having a major impact on the environment. The technologies required to minimize such impacts are discussed here in an in-depth overview and review of a broad spectrum of energy and environmental issues. The first five sections of the book deal directly with scientific and technological topics: the production, transportation, and utilization of electric power; thermal science and engineering for energy conservation/utilization processes; gas hydrates; multiphase mechanics for energy and environmental technology; pollutants and radioactive wastes in the earth. The sixth section, unique in a book of this type, focuses on education, recording a panel discussion on solutions to problems of energy and environment. For specialists and nonspecialists alike, the book is thus a valuable guide to the technological challenges for the future.

Original Farmall Cub and Cub Cadet

Definitive gardening advice - along with a story or two - for the novice or expert from one of the nation's most-trusted, and Grumpy, sources. Gardeners from across the country have turned to Southern Living Senior Garden Editor Steven Bender - known affectionately as "The Grumpy Gardener" - for his keen knowledge and gardening know-how with equal doses sarcasm and sidesplitting humor for nearly 35 years. Finally, the collected wit and wisdom of the magazine's most irreverent and beloved columnist can be found in a single A - Z volume, providing gardeners from coast-to-coast with his valuable tips for planting, troubleshooting, and growing flowers, vegetables, shrubs, trees and more, all delivered in his signature cantankerous style. Sidebars throughout the book - "Ask Grumpy" - help readers tackle common garden problems ("How do I get ride of little house ants?"), and readers from the past 35 years take part in the book when Grumpy shares his favorite reader's responses to some of his advice, his favorite rules for gardening, and Q & A's covering your favorite plants and flowers are all inside. Additionally, beautiful line-drawings and illustrations throughout make the book as beautiful to look at as well as entertaining to read. The Grumpy Gardener is sure to become the most trusted tool in your gardening shed!
