Help! I'm Teaching Middle School Science

Will your children be ready for the new national times table check? All children in Year 4 will have to sit an on-screen times tables check; this series will help to prepare children by supporting their learning and understanding of times tables. Each workbook provides practice, problem-solving activities, games and quick-fire quizzes to build fluency of times-tables facts. A free online practice test will also help children to prepare for this important national check. Each book uses concrete resources, problem solving and reasoning to build a mastery of multiplication and division, not just rote learning. Perfect for use at home or in the classroom. An accompanying

Your view of God determines your view of the world. You hold in your hands a landmark guide to understanding the ideas and forces shaping our times. Understanding the Times offers a fascinating, comprehensive look at the how the tenets of the Christian worldview compares with the five major competing worldviews of our day: Islam, Secular Humanism, Marxism, New Age, and Postmodernism. Understanding the Times is a systematic way to understand the ideas that rule our world. While the material is expansive, the engaging, easy-to-understand writing style invites you to discover the truths of God – and our world. This classic should be on the shelf of every Christian home, on the desk of every pastor, and in the hands of every Christian student headed off to college.

Like your own personal survival guide, Help ICOM Teaching Middle School Science is a nontechnical how-to manual especially for first-year teachers. But even veteran teachers can benefit from the plentiful ideas, examples, and tips on teaching science the way middle-schoolers learn best. The book covers all the basics: what to do on the first day of school (including icebreaker activities); preparing safe and effective lab lessons; managing the classroom; working with in-school teams as well as parents. But its practical and encouraging approach doesn't mean it shortchanges the basics of effective pedagogy. You'll learn: how to handle cooperative learning and assessment; how to help students write effectively and; the importance of modeling for early adolescents."

Heinemann Maths 5.

The revised and updated fourth edition of this classic book contains many new features and new readings. The author has selected seven new high interest pieces and retained five favorites from the third edition. The readings represent a wide variety of genres, with at least one academic reading per unit. A Writer's Workbook takes advanced level writing students systematically from reading to writing. Along the way, students read a high interest text; study the structure of academic essays; grapple with troublesome areas of grammar and writing mechanics; read and analyse student model essays; and write, revise and edit.
