Rise: How a House Built a Family

Following in the footsteps of Dr. Wayne Dyer's first children's book, the bestseller *Incredible You!* this work goes even further toward expressing Wayne's positive message for children. In *Unstoppable Me!* Dr. Dyer teaches children how to hold on to the no-limit thinking he believes they were born with, rather than just trying to "fit in." In doing so, they can learn to truly enjoy life and become unstoppable as they strive to attain their dreams. The 10 important lessons in this book include the value of taking risks, dealing with stress and anxiety, and learning to enjoy each moment. Each point includes an example showing how a child might apply the concept in his or her everyday life. Similar to *Incredible You!* there are questions at the end of the book to help spark discussion and to further reinforce Wayne's message.

Celluloid images flash at twenty-four frames per second, and the hypnotic sequence of moving pictures coaxes you to suspend disbelief and be entertained by the implausible. Unfortunately, many often suspend their beliefs as well, succumbing to subtle lessons in how to behave, think and even perceive reality. Do you find yourself hoping that a sister will succeed in seducing her sibling's husband, that a thief will get away with his crime, that a serial killer will escape judgment? Do you, too, laugh at the bumbling priest and seethe at the intolerant and abusive evangelist? Do you embrace worldviews that infect your faith and then wonder, after your head is clear, whether your faith can survive the infection? If you were inspired by Wild and Eat, Pray, Love, you'll love this extraordinary true story of a woman taking the greatest risk of her life in order to heal from the unthinkable. After escaping an abusive marriage, Cara Brookins had four children to provide for and no one to turn to but herself. In desperate need of a home but without the means to buy one, she did something incredible. Equipped only with YouTube instructional videos, a small bank loan and a mile-wide stubborn streak, Cara built her own house from the foundation up with a work crew made up of her four children. It would be the hardest thing she had ever done. With no experience nailing together anything bigger than a bookshelf, she and her kids poured concrete, framed the walls and laid bricks for their two story, five bedroom house. She had convinced herself that if they could build a house, they could rebuild their broken family. This must-read memoir traces one family's rise from battered victims to stronger, better versions of themselves, all through one extraordinary do-it-yourself project.

Just as World War II called an earlier generation to greatness, so the climate crisis is calling today's rising youth to action: to create a better future. In UNSTOPPABLE, Bill Nye crystallizes and expands the message for which he is best known and beloved. That message is that with a combination of optimism and scientific curiosity, all obstacles become opportunities, and the possibilities of our world become limitless. With a scientist's thirst for knowledge and an engineer's vision of what can be,

Bill Nye sees today's environmental issues not as insurmountable, depressing problems but as chances for our society to rise to the challenge and create a cleaner, healthier, smarter world. We need not accept that transportation consumes half our energy, and that two-thirds of the energy you put into your car is immediately thrown away out the tailpipe. We need not accept that dangerous emissions are the price we must pay for a vibrant economy and a comfortable life. Above all, we need not accept that we will leave our children a planet that is dirty, overheated, and depleted of resources. As Bill shares his vision, he debunks some of the most persistent myths and misunderstandings about global warming. When you are done reading, you'll be enlightened and empowered. Chances are, you'll be smiling, too, ready to join Bill and change the world. In *Unstoppable: Harnessing Science to Change the World*, the New York Times bestselling author of *Undeniable: Evolution and the Science of Creation* and former host of "Bill Nye the Science Guy" issues a new challenge to today's generation: to make a cleaner, more efficient, and happier world. His recently published book, 'Undeniable: Evolution and the Science of Creation,' enlightens readers while using a conversational, educational tone. crazy presidency, and reveals that Jared and Ivanka are not just the President's chief enablers: they, like him, appear disdainful of rules, of laws, and of ethics. They are entitled inheritors of the worst kind; their combination of ignorance, arrogance, and an insatiable lust for power has caused havoc all over the world, and may threaten the democracy of the United States. Ward follows their trajectory from New Jersey and New York City to the White House, where the couple's many forays into policy-making and national security have mocked long-standing U.S. policy and protocol. They have pursued an agenda that could increase their wealth while their actions have mostly gone unchecked. In *Kushner, Inc.*, Ward holds Jared Kushner and Ivanka Trump accountable: she unveils the couple's self-serving transactional motivations and how those have propelled them into the highest levels of the US government where no one, the President included, has been able to stop them.
