## **The Motor Boat**

The insights and wisdom of the late, great boat designer and builder Renowned as one of the last and best of the old-time boatbuilders, Captain R. D. "Pete" Culler provided a guiding light for the wooden boat revival in the 1970s. His designs are classic melds of elegance and utility; his workmanship was akin to artistry; and his teaching and writing a blend of clarity, good sense, insight, and humor. This book brings together the complete texts of Culler's classic works Boats, Oars, and Rowing and Skiffs & Schooners, along with articles from The Mariner's Catalogs

and a selection of his timeless boat designs.

The greatest small engines in the world are manufactured by Briggs & Stratton. From the informal partnership Stephen F. Briggs and Harold M. Stratton formed in 1908, Briggs & Stratton has evolved into an industry leader whose name is synonymous with the lawn mower engines it pioneered. The Legend of Briggs & Stratton, 208 pages, is filled with 125 color and 145 black & white images chronicling Briggs & Stratton's fascinating history.

### **The Marine Engineer and Naval Architect**

Motor Gun Boats were the “Spitfires of the Seas” of the Royal Navy. Bristling with

small-calibre guns and machine guns, they served in a variety of roles during the War. In the early war period they battled against German E-boats in the English Channel, then went on the offensive, searching the enemy shore for targets of opportunity. At other times, they ran support for Motor Torpedo Boats and were used to deliver commandos on various raids. Naval Warfare expert, Angus Konstam, tells the story of these small, but destructive boats, beginning with their design and development and carrying through to their operational use in both the European and Mediterranean theatres of World War II.
