This book has been designed specifically to support the student through the IB Diploma Programme in Mathematical Studies. It includes worked examples and numerous opportunities for practice. In addition the book will provide students with features integrated with study and learning approaches, TOK and the IB learner profile. Examples and activities drawn from around the world will encourage students to develop an international perspective.

Saxon Math is easy to plan and rewarding to teach. The focus on providing

teachers with strategies for developing an understanding of HOW and WHY math works builds a solid foundation for higher-level mathematics. - Publisher.

Government Reports Announcements

The current conditions of the Air Transport industry, as well as expectations for the future, are presented in sections covering the historical and present status of air transportation, regulation and administration of air transportation, air carrier aircraft (Boeing, McDonnell Douglas, Lockheed Martin, Airbus, and National Aerospace), and general aviation. The final legislation of the General Aviation Revitalization Act (1994) is presented in a new chapter. The included disk contains a DOS-based summary of the chapters.
