This book is written with Christians principally in mind, folks whose spiritual life has been nurtured by the sacraments. The Christians I have in mind are also seeking a practical way to enter more deeply into the sacred mystery of the divine presence on a daily basis in their walk-about lives. The sacraments of Baptism, Confirmation, Penance and Eucharist are considered from the viewpoint of the method they reveal for developing an habitual state of mind and heart that gives entry into a deeper daily connection with the mysterious presence of the divine in all things.

The Real Far Country

What was “real socialism”—the term which originated in twentieth-century socialist societies for the purpose of distinguishing them from abstract, theoretical socialism? In this volume, Michael A. Lebowitz considers the nature, tendencies, and contradictions of those societies. Beginning with the constant presence of shortages within “real socialism,” Lebowitz searches for the inner relations which generate these patterns. He finds these, in particular, in what he calls “vanguard relations of production,” a relation which takes the apparent form of a social contract where workers obtain benefits not available to their counterparts in capitalism but lack the power to decide within the workplace and society. While these societies were able to claim major achievements in areas from health care to education to popular culture, the separation of thinking and doing prevented workers from developing their capacities as fully developed human beings. The relationship within “real socialism” between the vanguard as conductor and a conducted working class, however, did not only lead to the deformation of workers and those elements necessary for the building of socialism; it also created the conditions in which enterprise managers emerged as an incipient capitalist class,

which was an immediate source of the crises of “real socialism.” As he argued in *The Socialist Alternative: Real Human Development*, Lebowitz stresses the necessity to go beyond the hierarchy inherent in the relation of conductor and conducted (and beyond the “vanguard Marxism” which supports this) to create the conditions in which people can transform themselves through their conscious cooperation and practice—i.e., a society of free and associated producers.

It is also about perceptology, a coined term I have given this study of one’s perception. Our situations change as we go through life, therefore our perception of them changes also. Having heard intimate secrets in intimate surroundings with many women over the years, in my hairdressing career, I understand what is bothering many women today. With the aid of the subconscious mind, we can explore our early

perceptions and see them in a different light. Some of these perceptions from our early life are stuck in our subconscious and are looking for solutions to be free. This is a workbook to help women find a way to let go of the negative things they have been carrying around since childhood. Using this method will allow them to see what's real and what's not. It is my intent to give you a plan and a pathway to follow to achieve the happiness in your life you deserve. Because the only thing you can really change in life is yourself, this book can help you do that. This book will take you from your earliest perceptions, to a different view of those perceptions. Help yourself see through the keyhole and look beyond, to what's really going on, on the other side of the door. Let's get real can help you do just that.

A Course in Miracles

Get Real! is a book for all women, from all walks of life. It's basic premise is that women are more than just the roles they play. However the myths and messages passed on to us by our families, the institutions we are involved in, and society often restrict us from thinking for ourselves, finding out who we are, and, in turn, living a more fulfilling life. By maintaining certain standards for women, society continues to promote the perfect woman, otherwise known as the Mythic Woman and unknowingly we follow the Mythic Woman pattern because we know nothing else. This book offers a new way to look at the lives we live and the messages we follow. It also provides insightful exercises to help women start their journey toward discovering their authentic self.

Industrial, financial, commercial or any kinds of project have at least one common feature: the better organized they are, the higher the profit or the lower the cost. Project management is the principle of planning different projects and keeping them on track within time, cost and resource constraints. The need for effective project management is ever-increasing. The complexity of the environment we live in requires more sophisticated methods than it did just a couple of decades ago. Project managers might face insurmountable obstacles in their work if they do not adapt themselves to the changing circumstances. On the other hand, better knowledge of project management can result in better plans, schedules and, last but not least, more contracts and more profit. This knowledge can help individuals and firms to stay alive in this competitive market and, in the global sense, utilize the finite resources of our planet in a more efficient way.

As a wife and mother of five, I know all too well how destructive building a façade that everything is fine can be. Tearing down this wall and letting people see the real me—the pain, the struggles, the tears, and the triumphs has been difficult but rewarding. *Get REAL: Stop Hiding Behind the Mask* examines how to do just that. It delves into discovering a person's true identity, centered on God's view of each of us, letting go of the insecurities that so easily entangle our lives and finally, living with eternal perspective—keeping our focus heavenward instead of inward.
