A story collection from the Pulitzer Prize-winning author of *The Amazing Adventures of Kavalier & Clay*, “one of his generation’s most eloquent new voices” (*The New York Times*). With his first novel, *The Mysteries of Pittsburgh*, Michael Chabon announced his presence as a literary wunderkind of style and substance. *A Model World and Other Stories* only burnished his reputation as a distinctive prose stylist. In eleven elegant tales—some of them linked—by the *New York Times*-bestselling author of *Telegraph Avenue* and *The Amazing Adventures of Kavalier & Clay*, Chabon’s singular characters hold tight to private dreams even as their closest relationships crumble. Five stories follow an anxious adolescent from the beach vacation where he learns of his parents’ divorce to the confused days of a woefully misguided crush. Others find ex-lovers tormenting each other at an oceanside café, a washed-up professional baseball player attending a teammate’s funeral, and a Pittsburgh disc jockey still pining for a woman who married him to get her American citizenship. “Chabon moves across powerful emotional ground with certainty and delicacy,” raves the *Chicago Tribune*. “There are heartbreaking moments in these stories, but they are rendered so precisely, through incidents that capture the subtlest of feelings, that the reader can only smile at Chabon’s skill.” This ebook features a biography of the author.

In his book on left-hand violin technique, Maestro Ruggiero Ricci addresses common problems in shifting by advocating the study of the glissando technique. He asserts that re-incorporating this technique will not only aid violinists in developing a better-trained ear, but also provide them with "shortcuts" to playing some of Paganini's most difficult passages. Ricci introduces and compares old and new systems of playing to provide a context for the glissando system. He outlines a series of glissando scales that provides the student with a blueprint for developing additional glissando scales in other keys. He offers exercises designed to increase flexibility, ear training, coordination, and crawling technique and has included a DVD in which he demonstrates various bowing techniques.

Barbara Coloroso's powerful message is that good parenting begins with treating kids with respect. It means giving them a sense of power in their own lives, and offering them opportunities to make decisions, take responsibility for their actions, and learn from their own successes and mistakes. Rejecting the "quick fix" solutions of punishment and reward, she uses everyday family situations from sibling rivalry to teenage rebellion to demonstrate sound strategies for giving children the inner discipline and self-confidence that will help them grow into responsible, resourceful, and resilient adults. Discover:

- Three basic tenets to a good parent/child relationship
- Why discipline is not learned through threats and bribes
- Why teaching a child how to think instead of what to think builds self-confidence
- The good news about the strong-willed child
- Three alternatives to always saying "No"
- How to buffer your children from the dangers of sexual promiscuity, drug abuse, and other self-destructive behavior
- Using mealtime, bedtime, toilet-training, chores, allowance, and sibling rivalry as opportunities to help children develop their own sense of inner discipline

Dr. Suzuki recommends that first position etudes be started when the student is working on Volume 2. The student should always be careful that fingers are placed before the bow moves. Dr. Suzuki repeatedly says, "One, fingers -- two, bow -- three, start." Since this is the first time the student plays an etude, the teacher needs to explain its purpose.
